

Endorsement of Les Linet, MD as my preceptor in psychiatry

I am a Psychiatric Nurse Practitioner, a graduate of Monmouth University MSN program. I want to particularly commend the psychiatry preceptor experience I had with Les Linet, MD.

I unreservedly recommend him to students interested in pursuing a career as a psychiatric nurse practitioner. I have learned an enormous amount from him about psychiatry and child psychiatry. In both specialties he is board certified. I feel very fortunate to have had a truly invaluable preceptorship with him. Dr. Linet can preceptor students in his office in Princeton, NJ. The other option would be the students from throughout the United States can attend his office visits remotely through a HIPPA compliant telemedicine system.

Sincerely,

X
