

My preceptorship in psychiatry

12/18/2020

I am a Post Masters Psychiatric Nurse Practitioner student, graduating from the University of Texas, Rio Grande Valley School of Nursing. I want to particularly commend the psychiatry preceptor experience I have had with Les Linet, MD.

I highly recommend him to students interested in pursuing a career as a psychiatric nurse practitioner. I have learned an enormous amount from him about adult psychiatry and adolescent psychiatry. In both specialties, he is board certified. I highly value the preceptorship experience with him. Dr. Linet can precept students either in his office in Princeton, NJ or, alternatively, throughout the United States remotely through a HIPPA compliant telemedicine system in which students can attend office appointments with his patients.

Sincerely,

THANH
