

Endorsement of Les Linet, MD as my preceptor in psychiatry

I am a Psychiatric Nurse Practitioner student attending the University of Texas Rio Grande Valley School of Nursing. I would like to strongly recommend Les Linet as a psychiatric preceptor based off of my personal experience. Any student pursuing a degree in the psychiatric field would be privileged to have Dr Linet as their mentor. He holds a board certification in both adult and child psychiatry, and is very knowledgeable. I was able to attend his office visits remotely through a HIPPA compliant telemedicine system which makes it very convenient for students located all over the United States. Dr Linet can also precept students in his office located in Princeton, NJ. I have learned a tremendous amount of information in the short time spent with Dr Linet, and my experience in this preceptorship was truly invaluable.
