

Les Linet MD, preceptor in psychiatry

I am a Psychiatric Nurse Practitioner, who will be graduating from Walden University with a specialty in psychiatry. I want to particularly applaud Les Linet, MD who served as my psychiatry preceptor during the winter of 2020-2021. I have learned a great deal from him both in terms of his extensive knowledge, professionalism, and excellent teaching ability. Furthermore, I have asked him to continue as my preceptor for the spring semester.

I enthusiastically recommend him to students interested in a career as a psychiatric nurse practitioner. I have learned an enormous amount from him about psychiatry and child psychiatry. In both specialties, he is board certified. He is a gifted teacher and preceptor.

Dr. Linet can preceptor students in his office in Princeton, NJ. Or students from throughout the United States can attend his office visits remotely through a HIPPA compliant telemedicine system.

Sincerely,

Kay, RN BSN
