Pacific Northwest Tool Collectors

WHAT IS PNTC?

The Pacific Northwest Tool Collectors is a community of individuals located throughout the Northwestern states and into Canada who make a living using, enjoy working with, collecting, restoring, buying, selling and talking about tools.

Membership includes collectors, craftsmen, tool dealers, tool manufacturers, artists and general users of tools. Members from British Columbia, Oregon and Washington meet approximately eleven times each year, alternating between Hillsboro, Oregon, and Seattle, Washington. The meeting format includes auctions, displays, discussions, tool trading, sales, and sources for tools. The type of tools involved varies and the scope is fairly wide.

The PNTC is the largest tool collectors group in the Western United States.
