

BEST IN THE WEST

DISPLAYS

We have finalized the categories for the displays at the 2022 BITW.

One of the most highly anticipated attractions at our Best-In-The-West event are the displays that members of our club create. These displays are an event in themselves and are considered by many as being the best of any club in the world. PNTC definitely recognizes the efforts put into assembling a display, and intends to provide a modest award to every member that creates one. The club will recognize the following categories for displays, and also recognizes that some displays enhance the BITW experience for all attendees, so we also award up to four Judge's Choice awards.

Categories:

- * Best General Display of Tools
- * Best Display of Specific Trade, Craft, or Theme
- * Best Display of Single Maker or Supplier
- * Best Single Tool
- * Most Informative Display
- * Best Tool of Own Making/Modification
- * Best Display on Tool Use
- * Attendee's Choice
- * Judge's Choice (1-4 awards)

Judging

In determining which displays best exemplify the above categories, the displays are evaluated by an impartial panel of judges using a set scoring system. Should a judge have a display, that judge is recused from scoring their own display. By working together the judges were able to develop and follow a uniform standard in scoring using the following criteria for each display:

- Uniqueness
- Quality
- Creativity in How Displayed
- Supporting Materials
- Curb Appeal
- Labeling

Judging will be Friday evening and award ribbons presented Saturday morning. That allows the award winners to be with their winning displays for pictures.

Remember, get your registration forms in quickly! Thanks.
