

## Prescription Reimbursement Program

### **What is the JTA Prescription Reimbursement Program?**

The Jacksonville Transplant Alliance is offering a reimbursement on prescription medications to Mayo Clinic transplant recipients. All kidney, liver, heart, lung, and pancreas transplant recipients who have been transplanted at Mayo Clinic Jacksonville are eligible to receive this assistance. These reimbursements offer a one-time payment of up to \$100 to help patients pay for their prescription medications.

- Reimbursements are only available to solid organ post-transplant patients who have been transplanted at Mayo Clinic Jacksonville.
- Any prescription medication is eligible for reimbursement. Non-prescription medications are not covered.
- This is a one-time reimbursement for up to \$100 per patient.
- The \$100 reimbursement can be used for one or more medications.
- Receipts or copies of receipts are required along with a completed Prescription Reimbursement Form. Multiple receipts may be used to reach the \$100 maximum benefit.
- Receipts must be dated after January 1, 2023.
- Only medications that are received through a retail pharmacy are eligible.
- Any pharmacy, including mail-order or specialty pharmacy within the U.S. may be used.
- No personal financial information is required to receive a prescription reimbursement.
- Only a limited number of reimbursements are available through this program.
