<p>Notes: Current coverage details and additional plan information can be found at www.verizonwireless.com. Coverage includes the Verizon Wireless 5G Ultra-Wideband network, 5G Nationwide® network, and 4G LTE network. For avoidance of doubt, the Verizon Wireless 5G Nationwide network is a separate network from the Verizon Wireless 5G Ultra-Wideband network. Usage outside of the United States will be billed at the international travel feature rate, if applicable, or pay as you go pricing, which can be found at www.verizonwireless.com/international. Lines activating on this plan must be on 5G Ultra-Wideband-compatible, 5G Nationwide, or 4G LTE smartphones.</p> <p>¹After 22 GB of data usage on a line during any billing cycle, usage may be prioritized behind other customers in the event of 4G LTE and 5G Nationwide network area congestion.</p> <p>²A 5G device is required to receive 5G Ultra-Wideband (UWB) service. To ensure users are able to maximize their high-speed data use for business applications, video applications will stream at up to 480p while on 4G LTE and 5G Nationwide network areas; and, will apply video streaming up to 4K when on 5G UWB network service areas.</p> <p>³Mobile Hotspot is available on all capable devices and allows the line to share data allowance with multiple Wi-Fi enabled devices. If the 4G LTE and 5G Nationwide Mobile Hotspot domestic data usage exceeds 10 GB on any line in any given billing cycle, Verizon Wireless will limit the data throughput speeds to up to 600 Kbps for additional domestic mobile hotspot usage for the remainder of the then-current billing cycle for the line that exceeds the data usage.</p> <p>⁴Includes domestic toll-free calling and toll-free calling from the United States to Canada and Mexico.</p> <p>⁵Unlimited messaging from within the United States to anywhere in the world where messaging services are available. For other messaging rates go to www.verizonwireless.com.</p> <p>⁶The optional TravelPass International Service feature extends the plan voice, messaging, and data allowances into Canada and Mexico at no additional cost. A \$10 daily rate will apply when used in all other Rest of World TravelPass countries. For data usage in Canada and Mexico and all Rest of World TravelPass countries, after the first 2 GB of usage in a day, throughput speeds for additional usage will be reduced for the remainder of the day. Verizon Wireless will terminate a line if more than half of the usage over three consecutive billing cycles is outside</p>
