CONFERENCE OVERVIEW

Metalogic's National Conference on Modern Logistics for Metals & Minerals will bring together industry leaders, policymakers, and experts to discuss the evolving logistics landscape that powers India's metals and minerals sector.

The conference will explore critical themes shaping the future of infrastructure and supply chains – from tunneling challenges in India's complex mountain terrains to advancements in roads, highways, and bridges that enable seamless connectivity.

It will also highlight the role of railways and metros in bulk transportation, and innovations in factory logistics with a focus on crane systems and efficient material handling. Sessions will delve into how AI and digitization are revolutionizing logistics planning and execution, while special emphasis will be given to pipeline infrastructure – including slurry, liquid, and gas transportation – as a sustainable and cost-effective alternative.

The event aims to provide a holistic platform for knowledge exchange, strategic collaborations, and forward-looking solutions that can strengthen India's logistics backbone for metals and minerals.

ABOUT THE ORGANISER

Our Mission

METALOGIC PMS is proud to be the industry's early morning news provider for over 4 years, covering areas such as steel, mining, automobile, cement, and infrastructure.

It also offers daily updates on commodity base prices and congestion reports at major Indian ports.

WeCreate TheBest

Our History

Founded in 2017, Metalogic PMS has since become a premier event in the industry, attracting top professionals and thought leaders from around the world.

With over 9 years of experience in organizing steel industry-related events and disseminating information through various media, METALOGIC's experienced team is set to propel this standalone venture for the success of the Indian iron and steel industry.

Our Speakers

We handpick each of our speakers for their expertise and innovative ideas, ensuring that our guests are exposed to the latest trends and thought-provoking insights.

WHY METALOGIC EVENTS?

Industry Specialised Speaker Selection

Buyers & Sellers Meet

Time Management With Quality Content

Policy Discussions & Recommendations

Brainstorming Sessions

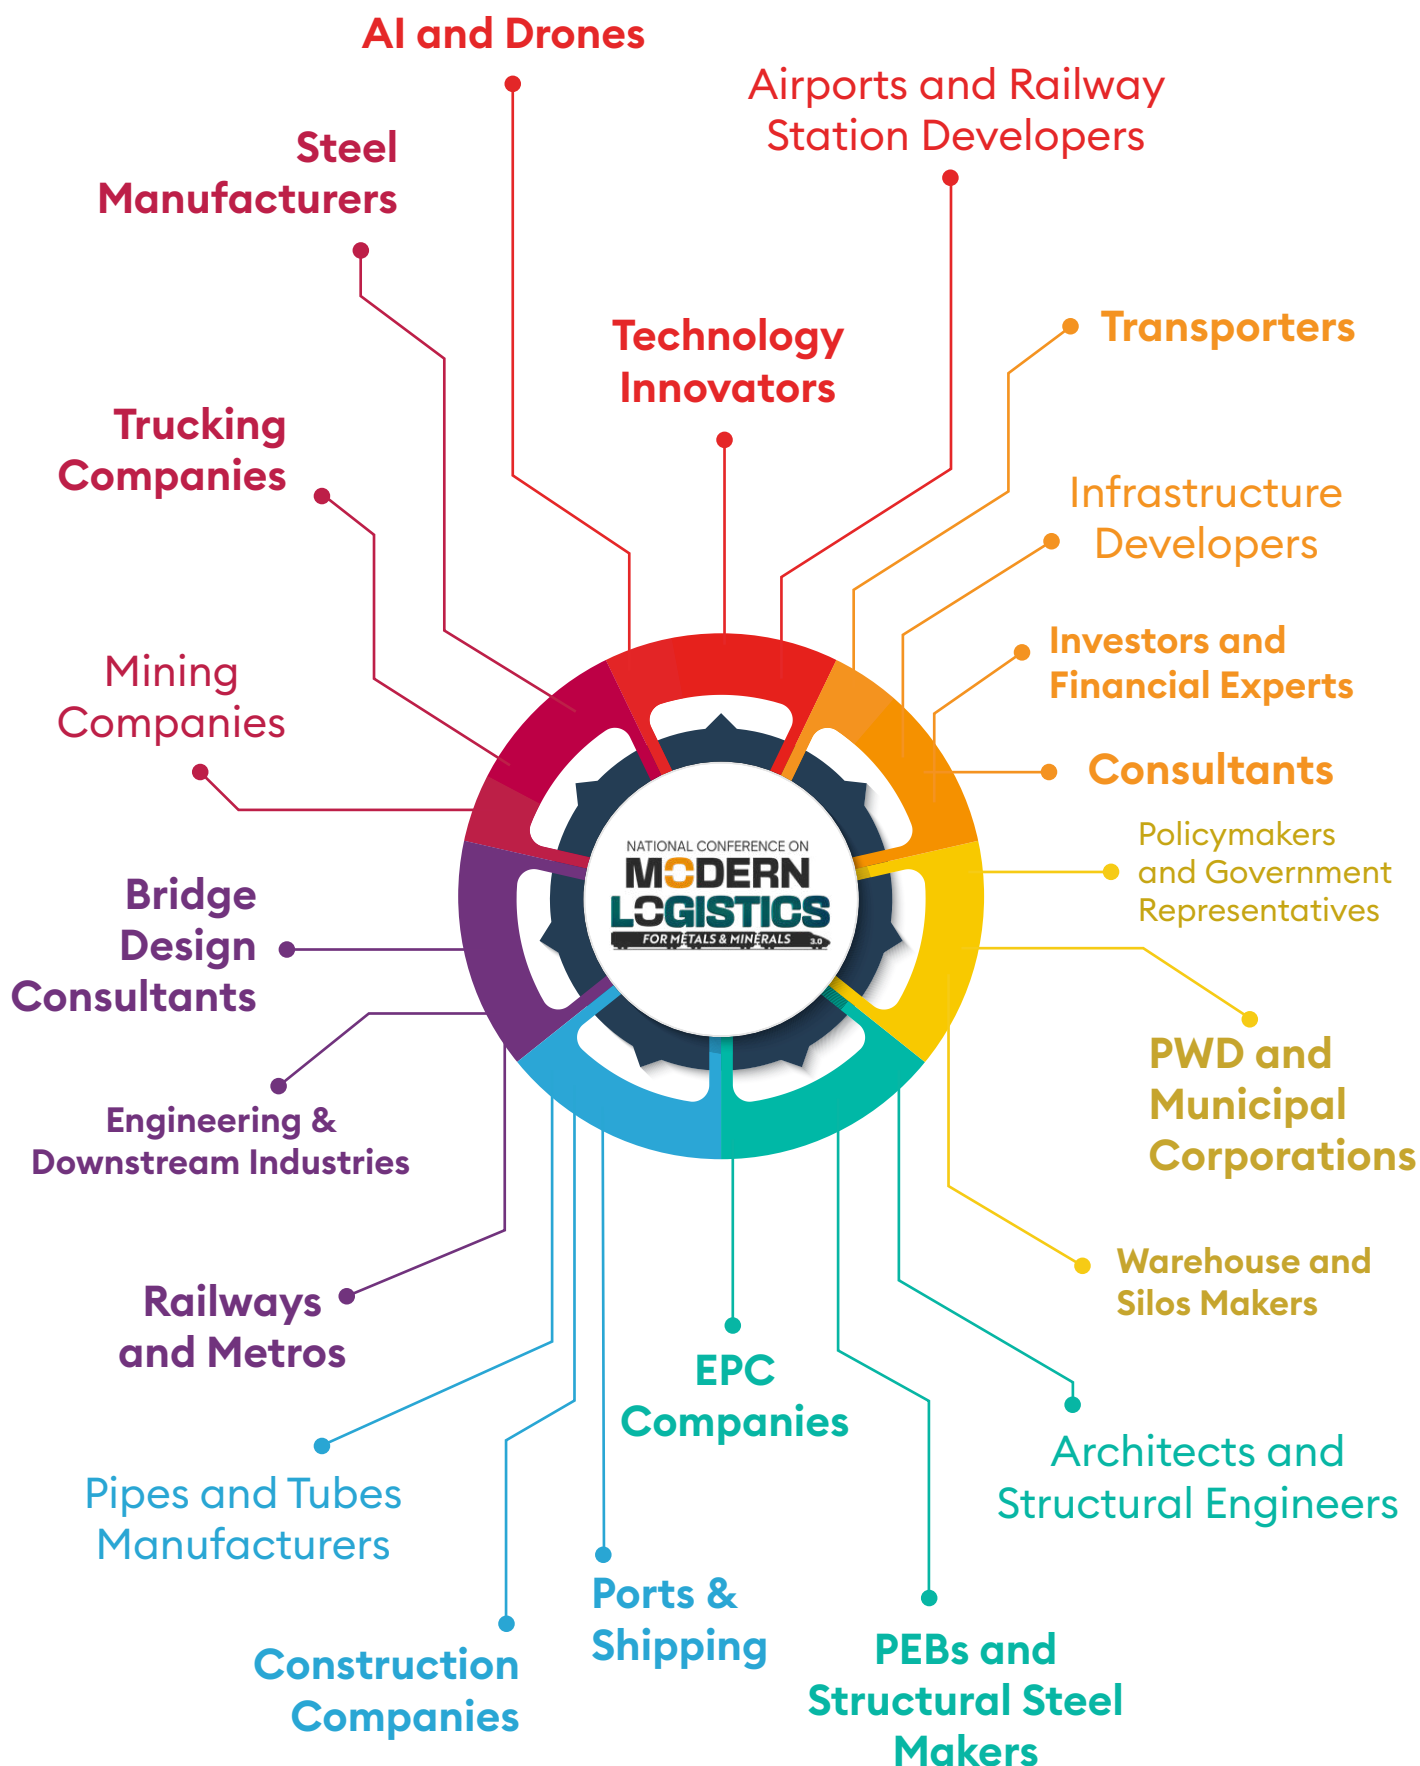

Targeted Customer Attendees

Excellent Promotion of Steel to End-User Industries

WHO SHOULD ATTEND?

09:00 - 9:45 am

Delegate Registrations & Networking Session

09:45 - 11:00 am

Conference Inaugural Session
(Lamp lighting ceremony)

Welcome Note:
Industry Note:
Chief Guest:

Discussion Points

- » Government schemes (like Bharatmala) supporting infrastructure logistics
- » PPP models for faster execution
- » Financing and investment trends in infrastructure logistics
- » Mega infrastructure projects transforming logistics

Mementos to the dignitaries by Ms. Monica Bachchan Duvvuri, Founder & CEO

11:15 - 12:15 pm

Session 1 - Slurry Pipeline - Scope, Challenges and Economics
Presentations

Discussion Points

- » **Slurry Pipeline:** Compared to traditional transportation methods such as trucking or rail, slurry pipeline transportation minimizes carbon emissions, air pollution, and road congestion, leading to a reduced environmental footprint.
- » **Economic & Environmental Advantages:** Cost-effectiveness in long-distance bulk material movement.
- » **Regulatory & Land Acquisition Hurdles.**
- » **Technical Aspects & Challenges:** Design and engineering considerations.
- » **Safety protocols in transport and storage for underground construction.**

12:15 - 12:30 pm

Sponsored Presentation
Slot 1

12:30 - 01:15 pm

Session 2 - Factory Logistics, Warehouse Optimization & Material Handling
Presentations & Panel Discussions

Panel Discussion

- » Implementation of automated conveyor systems, robotic arms, and automated guided vehicles (AGVs) for efficient material movement within factories.
- » Just-in-time (JIT) inventory systems to minimize storage costs and reduce waste.
- » Deployment of forklifts, pallet jacks, and overhead cranes for the internal movement of heavy materials like steel, aluminum, and other metals.
- » Packaging
- » **Warehouse Optimization:** Efficient layout design for warehouses to minimize travel time and optimize space utilization. Use of vertical storage solutions and automated retrieval systems for better space management.

01:15 - 2:15 pm

Lunch Break & Networking Session

02:15 - 02:30 pm

SP

Sponsored Presentation
Slot 2

02:30 - 03:00 pm

S3

Session 3 - Role of IOTs, AI and Drones in Supply Chain & Logistics
Presentations

Discussion Points

- » Transport Management Systems and IOTs.
- » **Harnessing the Power of Artificial Intelligence:** Delving into the applications of AI in supply-chain operations, including predictive analytics, autonomous equipment operation, and real-time decision-making to enhance efficiency and productivity.
- » Using AI, IoT, and Port Community Systems (PCS) to enhance visibility and coordination.

03:00 - 03:30 pm

S4

Session 4 - Bridges - Smart & Reliable Construction Techniques
Discussions

Discussion Points

- » **Types of Bridges:** Beam, Arch, Suspension, Cable-Stayed, etc.
- » **Innovative Construction Techniques:** Prefabrication, Accelerated Bridge Construction (ABC), etc.
- » **Sustainability in Bridge Construction:** Green Materials, Life Cycle Assessment, etc.
- » Importance of Bridge Maintenance & Inspection and Monitoring Techniques.
- » Challenges and Opportunities in the Future of Bridge Engineering.

03:30 - 04:00 pm

S5

Session 5 - Strengthening Last-Mile Connectivity in Steel & Mineral Logistics through Road Transport
Discussions

Discussion Points

- » Trucks as the last-mile connectors between mines, plants, and customers.
- » Bridging gaps where rail or coastal routes aren't viable.
- » National Logistics Policy and Gati Shakti initiatives.
- » Visibility and transparency through e-logistics systems.

04:00 - 04:45 pm

S6

Session 6 - Railways - Expanding Freight & Passenger Logistics
Discussions

Discussion Points

- » Enhancing railway logistics corridors.
- » Role of dedicated freight corridors (DFC).
- » Efficient rail transport for bulk commodities like iron ore, coal, bauxite, and other minerals.
- » Use of specialized containers (e.g., open-top containers) for heavy and oversized finished goods.
- » Integration of railways with major mining and port terminals for seamless supply chain logistics.
- » Public-private partnership opportunities.

04:45 - 05:30 pm

S7

Session 7 - Ports & Shipping
Discussions

Discussion Points

- » Role of Port Operators in Cargo Efficiency.
- » Infrastructure upgrades for high-volume bulk cargo (iron ore, coal, steel).
- » Integration of ports with rail and road corridors for last-mile connectivity.
- » Strengthening coastal shipping as a sustainable alternative to road and rail.
- » Policy support and incentives for coastal cargo movement.
- » Aligning with India's maritime decarbonization goals.

ABOUT THE
CITY

New Delhi is the capital of India. New Delhi and Delhi combined are called the National Capital Territory of Delhi. Along with this, the national capital region is much broader, in which various neighboring districts and places are also included. These are Gurgaon, Faridabad, Noida, Ghaziabad.

Firstly the foundation of New Delhi was introduced by George V in 1911 during the Delhi durbar. Herbert Baker and Edwin Lutyens fabricated the whole map of New Delhi. The inauguration of Delhi was done on 13 February 1931. The Viceroy and Governor-General Irwin inaugurated New Delhi for the first time.
