

Our New Year's Resolution Gerard's Lawn Care+?  
To never hear a customer say...

***What happened to my lawn?***

Dear GLC+ Family,

We know firsthand that you care deeply about the appearance of your lawn as it is a source of pride for most homeowners. Like you, we know that beauty is only skin deep and it is often what we cannot see that matters most.

**Your lawn is no different.**

We urge all of our customers to protect their investment with some **simple and cost-effective steps** that can help maintain the beauty of your lawn and home.

#### **Aeration**

Allows water and air to penetrate the soil and reach the grassroots

#### **Fertilizing**

Provides nitrogen and other essential nutrients for an exceptional lawn

#### **Weed control**

Apply herbicides & other treatments to manage local species of weeds

Please call us today to schedule your free lawn health consultation. Spring is the time signal to you that it's time to get your lawn ready for the growing season. We look forward to speaking with you about what is best for **your** lawn.

My best always,

Gerard
