Established in 1990 by Anna Zinkhorn, Misty Ridge Farm is a unique riding stable and farm unlike all other in the area and a place to go for people who love animals, especially horses, the outdoors and friendly people. Families will be able to tour Misty Ridge Farm and see a variety of horse breeds while learning about what goes into caring for them. We want to focus on fun, safety and horsemanship to give a well-rounded experience that goes beyond simply showing horses.

Misty Ridge Farm offers riding lessons for all ages and we have the only trail riding classes in the tri-state along with miles of trails! Ask us about our horse lease arrangement, volunteer and work opportunities. We also host tailored programs for school groups, Girl Scout and Boy Scout troops and everyone in between. And now with the addition of bunk beds in our cabin, groups can plan their event and stay for the night to wake up in the morning to sounds of the farm.

With nine pastures available for good rotational grazing, horses at Misty Ridge Farm have plenty of space to run around and enjoy the outside. For the colder winter months, we turn horses out in a heavy use field with round bales. This gives the fields time to rest and be ready for turnout in the spring.

If you have children 8-18 years old, think about checking out our 4H class. 4H students are able to learn everything from proper grooming to riding and everything in between. They also get the opportunity to not only learn every aspect of being around horses, but they can also have the chance to make new friends and find their goals and focus when it comes to riding. Our Wounded Warriors program allows us to give back to those who have served our country and allows veterans to build positive, emotionally healing relationships with our horses.

We are all about sharing the farming lifestyle and its benefits to people who might not be familiar with this type of environment. We want to bring people in to a way of life that is living in the shadow of fast-paced big cities. People can come to the farm and share a love of animals and the tranquility of a peaceful place. Kids can get off the couch and away from video games and get some good old fashioned fun and exercise while being educated in the process.

Horses are great animals to provide therapy for stress and insecurities that people might be feeling. They encourage a confidence in the rider. Everyone here at Misty Ridge Farm has their own love for horses that we enjoy sharing and experiencing with others!
