

# DEAD ANIMAL REMOVAL

The Campbell County Conservation District is providing financial aid to cover hauling costs for the removal and proper disposal of deceased farm animals within Campbell County. Landowners are required to use either Countryside Ind. (859)421-1867; or Shipley & Sons (513) 309-6658. OR you can haul it to Shipley & Sons yourself for \$150.

- Households are limited to a maximum of two pick-ups per fiscal year.
- The program includes both large and small animals.
- No mileage will be paid for producers transporting animals to a diagnostic lab.
- We encourage and educate about the benefits of on-farm composting, with local cost-share assistance available.
- This program is available until all allocated funds are exhausted.
- Upon receipt of the landowner's reimbursement request, a \$100 payment will be mailed to the landowner, pending board approval.
