

Local Ag: Success, Change, Economics

Join us for a forum as a panel of local Ag Businesses discuss their success, problems, and everything in between!

We will be discussing:

What new farmers and people who are farming at a “small scale” need to enhance, expand, or just be successful in their farming endeavors.

The concept of local foods as a mode of economic development and growth. Can we do more as a community to supply the demand for local food in the region?

Data from the Campbell Co. Conservation District’s survey in 2017 (conducted by Dr. Lori Garkovich) and other research conducted by Professor Sharyn Jones. In sum, farmers as a group share a love of and a respect for the land. How can we work together?

Panel:

Sharyn Jones, Pleasant Ridge Hamlets & NKU Anthropology

Andrea Dee, Home Grown Cakes and June and Joann Market Stand

Dennis Walter, Stonebrook Winery and Campbell County Conservation District

Don Sorrell, Campbell County Cooperative Extension Service

Tuesday, April 24, 2018

6:30 p.m.

Campbell County Environmental
Education Center
