Seven Wells Vineyard & Winery consists of two adjacent farms owned by the Wehrman family. The name is a reference to seven water wells located throughout the property that are remnants of residences from long ago. Past farming ventures have included tobacco, cattle, and hay.

In 2004 a vineyard was started with the planting of 400 grape vines. It has expanded to three acres and 1500 vines. Grape varieties include Vidal Blanc, Chambourcin, and Noiret.

Wine production began in 2009 with the conversion of a steel structure barn to house tanks, fermenters, and other winemaking equipment. In 2010 a tasting room was built and is located next to a 100-year-old barn. The tasting room overlooks the vineyards and customers are invited to taste and purchase wine as well as tour the grounds.

There will be a bottling demonstration in the winery on the day of the farm tour.

Allow 40 minutes for this stop.
