Puppies are evaluated between the ages of eight and twelve weeks of age at which time we do our best to determine if they are "companion (limited registration)" or "show (full registration)" quality (price difference). (*See page 3 for definitions of Full/Limited Registrations). Males sold as "show" quality will be on a "non-neuter contract" so that the dog is available to Breeder's females for future stud service which you must agree to. If you are sure you want to neuter your male mastiff and/or not allow stud rights, you should request a "companion" quality. For further contract details, please contact us.

***** *Limited Registration means that the dog or bitch is registered but no litters produced by that dog or bitch are eligible for registration or eligible to show at AKC events. Limited Registration helps breeders protect their breeding programs. If breeders do not want puppies used for breeding purposes, they can request the Limited Registration option for those puppies. Limited Registration can be changed to Full Registration only by the litter owner(s)/(Breeder), when the dog or bitch reaches the age of 24 months and is evaluated by litter owner(s)/(Breeder). It is at the litter owner(s)/(Breeder's) discretion whether or not the dog or bitch can be changed to Full Registration. All dog or bitch puppies that are sold as pet quality will automatically be placed on Limited Registration at the time of sale.*

***** *Full Registration means that the dog or bitch is fully registered and all litters produced are eligible for registration and may be shown at any AKC event. All dog or bitch puppies that are sold as show quality will automatically be placed on Full Registration at the time of sale.*
