Brand Identity, concept & design by Goldmedal Electricals Pvt. Ltd.

Never ending innovation

At Goldmedal, the cycle of innovation never stops. We are constantly identifying new ways of making life more efficient, more inspiring, by creating products that are extraordinary in many ways. The new range of Artio switches in the AIR modular range is another example of this endeavour.

Like every product in the Air range, the Artio switches are delightfully simple and minimalist to behold. Embodying reductionism and refinement, which are the hallmarks of a sleek, modern and urbane lifestyle, the Artio makes a contemporary statement in every sense. An ingenious design, the Artio consists of either single or a combination of switches embedded within a square frame that is extremely easy to install. Once installed, either individually or as a combination, the switches form a perfect, graceful circle. The elegance, harmony, and compositional unity of the Artio switches gives it a truly timeless appeal.

The Artio follows Goldmedal's impeccable record of crafting products that delight users with their functionality as well as aesthetics. It's a product that is sure to set future benchmark for standard switches.

Gifa Xg Absolute White Cover Plate with G-slide Switch in Titanium Grey

X9

It's the cover plate with the X-factor. Shaped like an eye-catching curved TV, the X9 cover plate exhibits the aesthetics of an artistic centerpiece. Mount it on the wall and its curved shape lends this cover plate a floating look that appears ultra premium in any setting. Available in a variety of finishes, the X9 is a cover plate that's distinctly a cut above the rest.

Air

Air A5 Absolute White Cover Plate with Aero Switch in Absolute White

A5

The new A5 cover plate is a mix of playful elegance and contemporary styling. Gently curved with rounded corners and a sleek chrome border around the inner frame, the A5 is a refreshingly clean and modern design with a dash of added fun. Like other AIR cover plates, the A5 is restrained in a quiet, refined manner without being dull and boring. Introduce A5 to your interiors to exhibit that rare combination of elegance and charming playfulness!

Air

Air A7 Absolute White Plate with Aero Switch
in Absolute White

A7

The AIR A7 cover plate is a wonderful example of contemporary minimalistic design with sophisticated functionality. This is an ultra-flat plate with softly rounded corners and a sleek chrome border around the inner frame. Characterised by AIR's familiar austere yet elegant looks, the A7 offers a quiet and reserved presence without appearing mundane. A quintessential modern-day switch plate, the A7 adds a touch of elegance to every setting.

RF i-TOUCH / RF i-FEEL / RF TOUCH SYSTEMS

Installing i-Touch, i-Feel or Touch Switches does not require any drilling or any additional wiring. Simply plug them into your existing wiring. All i-Touch, i-Feel & Touch devices are designed with Switched Mode Power Supply (SMPS) for improved reliability, over current and over voltage protection. (For specific installation and technical details, please refer to the Technical Sheet provided within the product packaging). In case you need to upgrade, these electronic Touch devices can easily replace your existing Curve / Nixon modular switches.

Classio Black Glossy Plate with Digital Silver I-touch Bellpush

GLASSIO

The Glassio is without doubt a classical beauty – exhibiting a smooth, glossy frontage, with soft, rounded edges and a demeanour that’s sophisticated yet warm and welcoming. The elegantly flared corners reflect and absorb light in a manner that adds depth and character to the cover plate. This interplay of light and shadow also creates a sinuous effect that makes Glassio the definitive artefact on your wall.

Artio

The Artio is a delightfully simple and minimalistic expression of the Air range. Embodying reductionism and refinement, which are hallmarks of a sleek, modern, and urbane lifestyle, the Artio makes a contemporary statement in every sense. Embedded within a square frame, the Artio switches can be installed as a single switch or as a combination of multiple switches to form a complete circle. The elegance, harmony and compositional unity that Artio represents gives it a truly timeless appeal.

Gifa AG Mountain Dew Plate with Titanium Grey G-Line Switch, Regulator

The colours of the Ag cover plates are modern yet delicate and almost ethereal in many ways. The tone is muted, relaxed and calm to ensure that these cover plates create a warm, welcoming environment around them. The choice of colours and texture allows the Ag cover plates to coexist peacefully with almost any type of ambience. Complement it with light interiors to create an air of purity and elegance or contrast it with dark interiors to create a rich, plush setting!

Gifa X9 Absolute White Plate with Titanium Grey G-Slide Switch, Regulator

X9

It's the cover plate with the X-factor. Shaped like an eye-catching curved TV, the X9 cover plate exhibits the aesthetics of an artistic centerpiece. Mount it on the wall and its curved shape lends this cover plate a floating look that appears ultra premium in any setting. Another unique feature is the raised chrome frame at the centre which elevates the design to a whole new level. Available in a variety of finishes, the X9 is a cover plate that's distinctly a cut above the rest.

Connections for an **AMAZING** future.

Rigid PVC pipes & electrical conduits fittings

Established in 1979, Goldmedal is one of India's most innovative companies in the wiring and switch industry. The company has now set up a state-of-the-art manufacturing plant in Vijayawada, Andhra Pradesh for the production of PVC Conduits, Fittings and Accessories. Equipped with the latest systems and processes, these pipes and accessories are manufactured under stringent quality conditions using the finest grade of raw materials from leading suppliers. Testing is done as per the specifications in IS: 9537 Part: 3 of the Indian Bureau of Standards. The Rigid PVC Conduit Pipes are being currently manufactured in three categories: Light, Medium and Heavy in standard 3 meter length.

GOLDMEDAL
WIREMAN

A wire is not just a wire. It can prove to be life-saving in case of an adversity.

As a user, it's really difficult to judge the quality of a wire. They all look the same.

How, for example, can you make out the quality of the copper used? Do they use superior copper of electrolytic grade 99.97%? Does it have the ISI mark of quality: IS 694 Part I, to be specific? How about the insulation – is it fire resistant and emit low smoke in case it burns? Does it have the highest possible melting threshold – of at least 100° C?

You may try to get all these information while buying your wires... or you could simply check for the Goldmedal Wireman on the wire packaging you buy!

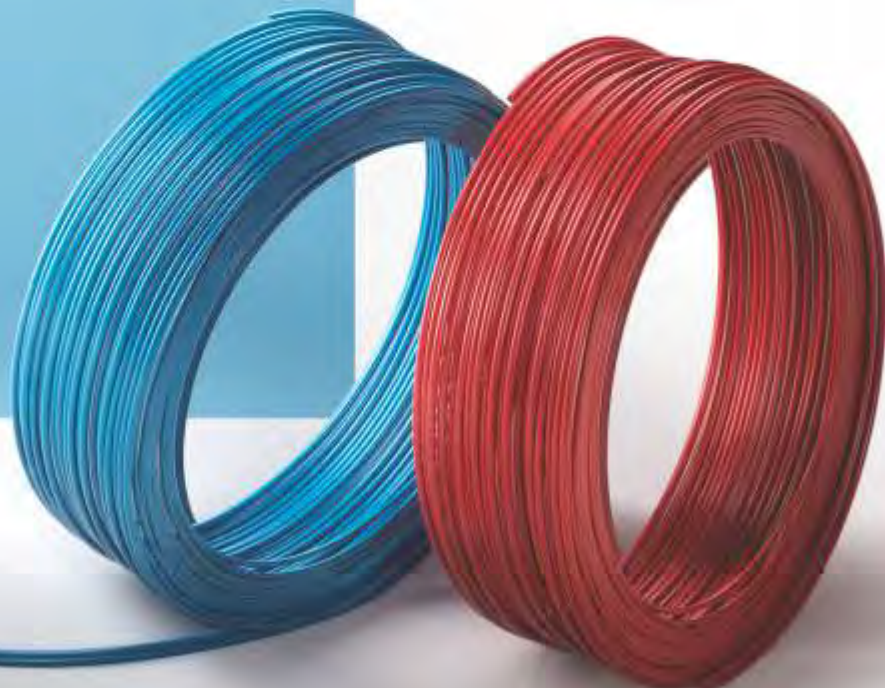

WIRED
FOR SAFETY

The Goldmedal Wireman makes choosing the highest quality wires so much easier!

Goldmedal is aware that a major reason for most fire accidents are the use of low-quality wires and cables with inferior quality insulation or conductor. Like most accidents, the majority of these electrical incidents are preventable – if high quality wires and cables are used! The Wireman is the symbol of the high standards adhered by Goldmedal. Consider him your safety shield. A symbol that you can rely on!
