**When everything is done,
your luggage is in the car,
and your friend is driving,
it's the perfect time to
leave us a review!**

6. Sofa-Bed

Linens for the sofa bed are located inside the lounge section.

7. Pets

Furry friends are loved and welcome!

Please clean up after them and dispose of waste bags directly in the dumpster.

Thank you for keeping pets off the furniture.

8. Stairs

The stairs leading to the bedroom are **quite steep**. There is an alternative set of stairs to the second level located outside.

9. Fire Pit

Firewood for the fire pit is provided. There is a pile located at the entrance of the property, near the grey/black building.

We will keep you informed regarding the fire ban in place in BC through Airbnb.

Additionally, there will be a notice placed in the fire pit.

10. BBQ Grill

You will find a guide on how to use the BBQ on your cabin's table.

Propane is provided. There is an extra tank next to the BBQ, please use the guide to see how to connect it.

Please wash the BBQ tools after use.

Please burn off any excess food to ensure no animals are attracted.

11. Speakers/TV

Airplay your favorite hits directly to the TV.

Cable TV is provided. To access it, press the Guide/List button on the remote.

To access different platforms directly, click on the respective platform button.

You will need to enter your own login information.

12. Coffee Machine

Your coffee machine is equipped with a reusable coffee capsule. Simply fill the capsule with your desired amount of ground coffee, close it and insert into the machine like a regular pod. Enjoy!

13. Hot Tub

- The hot tubs are treated between every guest. We use chlorine as main sanitizer. Please leave the floating puck distributor in the hot tub.
- The temperature is locked at 100° in the summer and at 104° in the winter.
- Take a shower before getting in. Soap or cream will create foam and will damage the equipment. Also, remove grass or rocks under your feet.
- Do not bring glass into the hot tub; plastic cups are provided.
- To increase/decrease jet strength, manually turn the jet itself.
- To turn on the hot tub and start jets : press the JET button twice. To stop the jets : press the JET button once.
- You don't need to close the hot tub when finished, it will automatically turn back to its regular cycles. Simply put the cover back on.
- The water level shown on below pictures is the highest that this hot tub can be. The top jets will never be underwater.

Warnings

Children are at higher risk of overheating than adults. Keep children under the age of 7 out of the hot tubs. Their small bodies do not regulate temperature well and overheat too quickly.

Children over the age of 7 and pregnant women should use hot tubs at lower temperatures and for shorter durations.

Alcoholic beverages and some drugs can cause drowsiness. They can also lower the body's resistance to the effects of overheating. Do not consume these when using the hot tub.
