

South Hobart Sandy Bay Selection Overview 2020-21.

Purpose.

Selection is much discussed within a cricket club. The purpose of this overview is to clearly outline the criteria which will be discussed when selecting teams. The criteria serve as guiding principles to make selection as consistent and fair as possible, and it is the Chairman's role to ensure that this occurs.

Selection Criteria.

When selecting teams, the selection panel will be instructed to balance the following: -

1. Past and present performance.
2. Presenting opportunities to players we feel are capable of playing state cricket. (junior and senior).
3. Format of the game being played.
4. Team balance.
5. Adherence to our Core Values.
6. Proven ability to perform under pressure.

7. Ensuring we are developing a pipeline of talent.

Communication of teams

This is the responsibility of the Chairman of Selectors or a chosen representative of the Selection Panel when necessary. Should a player be “dropped”, reasons will be discussed face to face, but when this is not possible it will be done by phone. This will be done by the Chairman, Head Coach, or Captain. When making selection decisions, all members of the panel will be in agreement by the time the decision has been made, and our Senior Assistant Coaches will be informed why decisions have been made. This is so they are fully aware of the process and may help players target areas where they have been asked to improve. This is a critical component of our selection panel’s overall process.

Selection Panel Philosophy

The aim will be to make selection as fair and transparent as possible. We want everybody to improve throughout the course of the year, and hope that we can provide the opportunities for you to make this a great year for the Sharks.
