

# Anatomy & Physiology Practice Quizzes!

**NEED SOME EXTRA PRACTICE BEFORE AN EXAM? TRY THESE!**

## **Anatomy Practical Exam Content (\$10/20 questions)**

- Having difficulty preparing for exams where you have to identify and label muscles and bones? Then these quizzes are for you!
  - Bone and Muscle Identification
  - Bony Landmark Questions
  - Identifying Common Actions and Nerves

**Includes video content showing bone/muscle models... like an actual exam!**

(specify whether you need upper extremity, lower extremity, or axial skeleton material)

## **Anatomy & Physiology Written Exam Content (\$10/20 questions)**

- Struggling with multiple choice style questions? Want to see if you are retaining the material? Pick from one of the following mini exams and see how well you do!
  - Medical Terminology: Roots, Prefixes, Suffixes
  - Directional and Sectional Terminology
  - Bony Landmarks (both axial and appendicular skeletons)
  - Joints and Ligaments (upper OR lower extremities)
  - Muscles (upper OR lower extremities)
  - Myotomes, Dermatomes and Reflexes (clinical focus)
  - Spinal Nerves and Spinal Cord
  - Organelles
  - Connective Tissues of the Body
  - Autonomic Nervous System (sympathetic and parasympathetic)
  - Brain
  - Metabolism
  - Renal Physiology
  - Endocrine System
  - Cardiovascular System
  - Respiratory System
  - Advanced Human Anatomy (variety of questions covering multiple units)
