

Environmental & Sustainability Policy

Effective Date: April 8, 2026

Hanoz Indemnify Appraisers LLC is committed to managing its operations in a manner that supports environmental protection, regulatory compliance, pollution prevention, and responsible business performance.

As a professional services company providing property damage assessment, appraisal support, claim review, catastrophe-response support, and field-based operational services, we recognize that our activities may create environmental impacts through travel, field operations, office resource use, vendor coordination, and routine business waste. We are committed to identifying and reducing those impacts through practical controls and responsible operational practices appropriate to the scale of our business.

Scope

This policy applies to Hanoz Indemnify Appraisers LLC's operations, including internal business activities, field operations, vendor coordination, and work performed by employees, contractors, inspectors, adjusters, and representatives acting on behalf of the company.

Our Commitments

Hanoz Indemnify Appraisers LLC is committed to:

- Complying with applicable environmental laws, regulations, and obligations relevant to our operations
- Supporting the prevention of pollution across business activities where environmental impacts may arise
- Promoting responsible use of energy, fuel, paper, and office resources
- Reducing unnecessary waste and encouraging reuse, recycling, and responsible disposal practices where available and practical
- Considering environmental impacts in planning, field execution, internal operations, and vendor coordination where relevant
- Encouraging efficient scheduling and digital communication practices to help reduce unnecessary travel and associated emissions
- Maintaining awareness of environmental risks and impacts associated with operational activities
- Supporting continuous improvement in environmental performance through review, accountability, and practical operational discipline

Operational Focus Areas

Pollution Prevention

We aim to carry out business activities in a way that helps prevent avoidable releases, spills, or other forms of pollution affecting air, water, or land where such risks may arise in connection with operations.

Waste Management

We work to minimize unnecessary waste generation and support responsible disposal practices for routine business waste, office materials, and equipment through appropriate local or authorized disposal channels where applicable.

Sustainable Resource Use

We encourage responsible use of materials, paper, office supplies, electricity, and other resources used in day-to-day operations.

Travel and Transportation

Because travel can form part of field-based and catastrophe-response activity, we seek to reduce unnecessary travel through efficient scheduling, remote communication where practical, and coordination of assignments to reduce avoidable trips and fuel use.

Vendor and Supply Chain Awareness

Where relevant, Hanoz seeks to work with vendors, service providers, and subcontractors that demonstrate responsible operational practices and compliance with applicable requirements.

Environmental Risk Awareness

We seek to review environmental risks and impacts associated with business activities, new assignments, and field operations in a manner appropriate to the scale and nature of the work.

Monitoring and Continuous Improvement

Hanoz Indemnify Appraisers LLC supports continuous improvement in environmental performance by maintaining operational awareness, reviewing environmental risks and impacts associated with activities, strengthening internal accountability, and improving environmental data collection and reporting practices as appropriate to the scale of operations.

As our business grows and client expectations evolve, we will continue to assess opportunities to improve our environmental practices, operational controls, and reporting approach.

Responsibility

Management is responsible for oversight of this policy. All personnel, contractors, and representatives performing work on behalf of Hanoz Indemnify Appraisers LLC are expected to support this commitment through responsible day-to-day operational practices.
