

## Building Number Sense: Foundations for Math Success

*Are you looking to increase teaching collaboration between general educators and special educators in early mathematics in grades K-3?*

Teaching Partnerships for  
Mathematics Achievement

Strengthen collaboration between general and special education teams to boost math achievement across your school. Learn how to identify areas of struggle and deliver targeted support to help students build a strong foundation for future success.

### *What's Included:*

- *Two days of in-person training with expert Suzi Mast and ADE specialists*
- *Ongoing virtual learning sessions*
- *Supportive on-site instructional coaching*
