What other concerns do you have about the 2021 Season?

22 responses

Uncertainty - plans need to be flexible to accommodate - clear refund plans, general field scheduling concerns with PPS and PPR, more concerned about how COVID breakouts would be handled (contact tracing, cancellations, etc) than the screening procedures/healthy roster, small sided tournaments might be good option

There is so much in the unknown in terms of what the public health situation will be both statewide and locally, which makes it difficult to plan in advance.

SYL would like to align with other programs in area so we are offering a comparable program. We want to offer something whether it's not contact or full contact

Our biggest concern will be availability of fields. Since most of our fields are owned by the school district we are concerned if they will rent them and if we will be able to get any since it will be during football and soccer. But we will do our best and look forward to working with OYLA to have a season. Also we will be competing for players with soccer and football so our numbers may be low.

Field time, parent/player participation, governor mandates.
