

Davina Counselling & Psychotherapy — Psychotherapist (Independent Contractor, Part-Time)

Davina Counselling & Psychotherapy is expanding, and we're inviting a warm, skilled, and ethically grounded Psychotherapist to join our practice as an **independent contractor**. This role is ideal for a practitioner who values relational depth, cultural humility, and evidence-based therapeutic work within a supportive, trauma-informed environment.

About the Role

You will provide high-quality counselling and psychotherapy services to individuals working from our Taylors Lakes premises on:

- **Tuesdays**
- **Thursdays**
- **Every second Saturday** (to be negotiated)

Our hours are generally 10am -7pm Monday to Friday, and 10am – 2pm Saturdays.

This is a **contractor position**, not employment. You will maintain autonomy over your clinical work while contributing to a collaborative, values-aligned practice.

What We're Looking For

- Registration with **AHPRA**, with eligibility to practise independently.
- Commitment to culturally respectful, inclusive, and anti-oppressive practice.
- Strong grounding in trauma-sensitive, relational, or evidence-based therapeutic modalities.
- Ability to work autonomously while engaging in a supportive professional community.
- Professional indemnity and public liability insurance (as required under Victorian law).
- Current Working With Children Check and Police Check.
- Capacity to maintain clinical records in accordance with Victorian privacy legislation and professional standards.

What We Offer

- A warm, welcoming practice environment aligned with relational, strengths-based values.
- Beautiful therapy room designed for emotional safety and comfort.
- Administrative support systems that respect your autonomy as a contractor.
- A practice culture that honours reflective practice, professional growth, and client-centred care.

Ideal for Practitioners Who...

- Want to grow their private practice without the pressure of full-time commitment.
- Value a supportive, collegial environment grounded in integrity and compassion.
- Prefer a contractor model that respects independence while offering stability and structure.
- Are passionate about delivering high-quality therapeutic care within a culturally safe framework.

How to Apply

If you resonate with our values and would like to contribute to a practice built on warmth, professionalism, and relational depth, we'd love to hear from you. Please send a brief introduction outlining your therapeutic approach, your CV with registration details, and response to Key Selection Criteria.

All applications to be addressed to:
