SERVICE **DOGS**

What Is a Service Dog?

service dog helps a person with a disability lead a more independent life. According to the Americans with Disabilities Act (ADA), a service dog is "a dog that is individually trained to do work or perform tasks for a person with a disability."

"Disability" is defined by the ADA as a physical or mental impairment that substantially limits one or more major life activities, including people with history of such an impairment, and people perceived by others as having such an impairment. The ADA prohibits discrimination on the basis of disability

employment, state and local government, public accommodations, commercial facilities, transportation, and telecommunications.

A service dog is trained to take a specific action that helps mitigate an individual's disability. The task the dog performs is directly related to their person's disability.

For example, guide dogs help blind and visually impaired individuals navigate their environments. Hearing dogs help alert deaf and hard-of-hearing individuals to important sounds. Mobility dogs assist individuals who use wheelchairs or walking devices or who have balance issues. Medical alert dogs might also signal the onset of a medical issue such as a seizure or low blood sugar, alert the user to the presence of allergens, and myriad other functions.

Psychiatric service dogs assist individualswith disabilities such obsessive-compulsive disorder, post-traumatic stress disorder, schizophrenia, and other conditions. Examples of work performed by psychiatric service dogs could include entering a dark room and turning on a light to mitigate stress-inducing condition, interrupting repetitive behaviors, and reminding a person to take medication.

www.city-data.com/city/Indiana.html worldpopulationreview.com/us-counties

Tipton county is situated in the heart of Indiana on 260 square miles of some of the state's richest farmland and most beautiful countryside. The 16,000 Hoosiers who make Tipton County their home are proud stewards of the amenities and history they share.

The county was founded in 1844 by a small community of brave, hardworking pioneers, who looked at the swampy virgin forest of the Miami Territory and envisioned the possibilities of a land where they could settle, build their homes, forge their livelihoods, raise their families, and leave a legacy. Today, Tipton County embraces its bountiful history of agriculture, railroads, and manufacturing, yet remains ever mindful of a future that is still unfolding. That future may be best exemplified by the Chrysler Group's new, nine-speed transmission plant that opened in 2013 at the junction of State Road 28 and U.S. 31 in a 782,000-square-foot, cuttingedge facility. When the plant reaches full capacity, Tipton will become a global hub for nine-speed production.

Tipton County thanks you for stopping by their website and invites you to stay awhile and explore. Please visit often both virtually and in person.

Instant Pot Applesauce

written by: Lauren Allen tastesbetterfromscratch.com/instant-pot-applesauce

STATE BIRD

NORTHERN CARDINAL is one of America's favorite backyard birds, cardinals are distinctive in appearance and song, known for their "cheer cheer cheer," "whit-chew whit-chew" and "purty purty purty" whistles.

Male cardinals are a brilliant scarlet red, females a buffy brown with reddish wings - both have a jet -black mask,

pronounced crest, and heavy bill. The cardinal sings nearly year-round, and the male aggressively defends his 4-acre territory. Northern cardinals breed 2-3 times each season. The female builds the nest and tends the hatchlings for about 10 days while the male brings food. The male then takes over the care of this first brood while the female moves on to a new nest and lays a second clutch of eggs.

Did you know that not all applesauce is created equal? That's the truth. Any time I'm forced to buy store-bought applesauce it's a strugggggle. It's like buying store-bought jam. Every single brand and type has so much sugar, and most of them don't even taste very good. Am I sounding like a total applesauce snob? I'm sorry, but homemade applesauce is just so easy and so GOOD, especially if you have an instant pot. The first time I made applesauce in the instant pot I was blown away. That machine just continues to amaze me! (I have this 6qt instant pot). It was so incredibly easy and turned out perfect, with very little time or effort on my part.

HOW TO MAKE APPLESAUCE IN THE INSTANT POT:

First, you choose your apples. I like a blend of sweet and tart apples to make really great flavor for the applesauce, without having to

add extra sweetener. Granny Smith and Honey Crisp combination is definitely my favorite. Peel, core and slice the apples. I use a johnny apple peeler to peel, core and slice the apples super quickly. Add your apples to the instant pot. Toss the apples in water, cinnamon and lemon juice, and cook them on manual or high pressure for 8 minutes. After a controlled quick release, open up the lid and the apples have literally turned to applesauce! You don't need to do anything but give them a little stir. The taste is AMAZING– perfectly sweet, especially with a little extra cinnamon on top. If you used different apples, and feel that it needs to be sweeter, you could add some white or brown sugar. I love applesauce that I can feel good about feeding my kids. I know exactly what's in it, and everyone LOVES it! It's its own type of delicious comfort food, don't you think?

INGREDIENTS

- 4 large Granny Smith apples , peeled, cored and roughly chopped
- 4 large Honeycrisp apples , peeled, cored and roughly chopped
- 1 cup water
- 1 Tablespoon fresh lemon juice
- 1/2 teaspoon ground cinnamon

DIRECTIONS

- Peel and core apples. I use a johhny apple peeler to do all three steps at once (peel, spice and core).
- Add water, lemon juice and cinnamon to instant pot and stir to combine. Add apples and toss to mix.
- Secure lid and cook on manual (high pressure) for 8 minutes. Do a controlled quick release or allow the pressure to naturally release.
- Mash the apple mixture a few times with a potato masher, if desired. (If you like a smoother texture you could pulse it in the blender.)
- Transfer contents to a bowl and allow to cool completely. Stir in more cinnamon, if desired, to taste. Enjoy warm or cold. Store in the fridge for up to 7-10 days.
