A PARABLE ON VOTING METHODS – WISDOM ON HOW TO;

Two car owners have the same goal, they love their 1957 Chevy's. Joe's car is very good looking, a very attractive automobile. However it doesn't pass inspection, looks great but as cars go useless to drive. Bald tires, engine won't run, seats torn, bad transmission. But it looks good on the outside. Don has the same car, but his looks terrible. The car needs a complete paint job, and some hood ornaments are missing, auk. Rough on the outside. But this car is others wise a hot rod. Strong engine & trans, new tires, roll & pleated leather bucket seats, new inspection, wow. Reliable for long hauls or the drag strip. Which car would you rely on? The nice looker that doesn't work or the functional one?

VOTING IS THE SAME WAY! It's not about the personality, but the operation (policies). Unless your too vain or to proud to notice the difference.

Fable.docx

Maybe this old 1700's fable will explain?

Don't Argue with a Donkey Fable. Double click

Will Your Future Vote Be A Cure From Government Ills or A Placebo?

WILL YOUR VOTE BE A WISE ONE USING COMMON SENSE OR VAIN WINDOW DRESSING? IS IT FOR A GOOD LOOK, BUT an IN-OPERATABLE POLICY OR FOR A SOUND RELIABLE and DEPENDABLE POLICY?

Just wondering

“HAPPY NEW YEAR”
