Introducing P0LLY

Welcome to the world of P0LLY [PFLT], a new meme token on the Arbitrum One blockchain that is set to redefine the crypto landscape.

With a total supply of 200 million tokens, P0LLY is not just another meme token; it's a token with a purpose and a daring mission. Our slogan, "How long can you hold, how high will you soar?" encapsulates the spirit of our project.

Tokenomics & Taxes

The tokenomics of P0LLY are designed to ensure fair distribution and to incentivize holding:

Total Supply: 200 Million PFLT tokens

NFT Presale Allocation: 50 Million PFLT tokens

Presale: 100 Million PFLT tokens

Liquidity: 50 Million PFLT tokens

TAX STRUCTURE

BUY TAX: 3%

1% to PFLT liquidity

1% to Revenue generating liquidity pools

0.5% to Team

0.5% to Charity: Bluebell Wood Hospice

SELL TAX: 3%

1% to PFLT liquidity

1% to Revenue generating liquidity pools

1% to Team

Presale & Public launch schedule

There will be 2 presales before public launch, with a upwardly scaling price.

Holder of Fortune Hunters RWA NFTs will have the earliest and cheapest presale to purchase POLLY [PFLT] tokens.

These NFTs are still available for purchase at a very reasonable price from Opensea on the Polygon blockchain at the following address:

<https://opensea.io/collection/fortunehuntersrwa>

The public presale is for people wanting to buy POLLY but do not hold an NFT and is designed to be accessible to all.

After this will be the Public launch.

SCHEDULE

NFT Presale: 7pm UK time: 28/04/24 to 08/05/24

Public Presale: 7pm UK time: 08/05/24 to 22/05/24

Public launch date: 9pm UK time: 22/05/24

Presale & Public launch breakdown

NFT PRESALE

NFT presale price: \$0.005 per token
Max allocation per NFT: \$100 / 20,000 tokens
Minimum buy: \$20 / 4,000 tokens

NFT presale revenue allocation is as follows:
50% to PFLT liquidity
15% to Team
5% to FHT liquidity
30% to Revenue generating liquidity pools to earn for scheduled token buybacks

PUBLIC PRESALE

Public presale price: \$0.01
Max buy: \$1000 / 100,000 tokens
Min buy: \$20 / 2,000 tokens

Public presale revenue allocation is as follows:
60% to PFLT liquidity
30% to Revenue generating liquidity pools
10% to Team

OFFICIAL PUBLIC LAUNCH

PFLT launch price will be \$0.02 - 2x the Public presale price and 4x the NFT presale price.

How to buy P0LLY

In order to buy P0LLY [PFLT] you will need a cryptocurrency wallet - the team recommends:
Rabby wallet: <https://rabby.io/>

and

Safepal: <https://www.safepal.com/en/download>

Add the Arbitrum One blockchain to your wallet;
do this at Chainlist:

<https://chainlist.org/chain/42161>

You will need to send some ETH [the gas token] via a reliable bridge to the Arbitrum One chain.

You can buy ETH from Uniswap:

<https://app.uniswap.org/swap>

To buy the P0LLY Tokens during a presale you will need to do so via Gempad, who are hosting both Presales - use the search function on the Gempad site:

<https://gempad.app/presale>

On public launch, P0LLY will be available via Uniswap:

<https://app.uniswap.org/swap>

Utility, Roadmap & Team

UTILITY

Initially P0LLY's utility is to simply create continual buy & sell pressure to elevate the value of the PFLT token. Once the token is fully launched and established, the P0llottery will be rolled out, giving participants a chance to win big with PFLT, blue chip Cryptos and desirable Real World Prizes.

TEAM

P0LLY Token is brought to you by Team Fortune Hunters, who have been involved in Crypto for more than two years. Over this time we have built an active community of more than 1500 like minded individuals on Telegram; join us here:

<https://t.me/FHTToken>

We hold regular AMAs with an open mic policy, where questions are encouraged.
