

EIGHTH ANNUAL INDOOR CHAMPIONSHIP ATHLETIC MEETING.

The 1929 Indoor Meeting was held on March 2nd at the 102nd Engineers Armory in New York City. It is the general feeling that the Intercollegiate Games have arrived at a very high order of excellence. Last year the splendid program and management of the games evidently left its impress upon the public, because the meet this year again drew a capacity crowd. The advance sale was the largest in history and in spite of most unfortunate weather conditions the armory was filled, and this year without any special events as feature attractions. The meet began promptly and was finished at 10:45 and was uniformly exciting and interesting.

New York University won its first championship with a total of 25 points. Less than three points separated the next three place winners. Georgetown was second with 22 1-4, Pennsylvania third with 21 1-4, and Cornell fourth with 19 1-2. At last year's meet New York University was fifth with 13 points and few of the dopsters were willing to concede them the championship before hand. They brought a well balanced team that scored in five events. The outstanding performer for the new champion was Sol Furth who won the broad jump and was second in the hurdles. Philip Edwards the N. Y. U. outstanding star and member of the Canadian Olympic team, 880 Outdoor champion, ran the last relay on the winning 2 mile relay and finished second in the one mile run. The latter event was one of the most uncertain and astonishing races of recent years. The event was generally conceded to Edwards. At one time or another five men took the lead in this race. The winner, Joseph J. Hickey, emerged into the lead early in the last lap and with a terrific sprint beat his teammate to the finish by 5 yards in the excellent time of 4 minutes and 20 seconds. The 2 mile relay team won handily with a lead of 9 yards.

Three records were broken. Frederic H. Sturdy of Yale with a splendid vault of 13 feet 7 3-4 inches broke Sabin Carr's record of last year by 3 inches. The vault of Bernard E. Berlinger of U. P. who took second place was just an inch higher than the previous record. The Freshman medley relay team of Pennsylvania lowered the previous record made also by a Pennsylvania team in 1922 by 2 6-10 seconds establishing a new record of 7 minutes 42.6 seconds. In the 70 yards high hurdle John S. Collier of Brown in the first heat equalled the Indoor record held by Charles H. Moore of Penn State made in 1925 by winning his heat in 8.6 seconds. Curiously enough the record of Moore was also made in a heat.

The meet saw two excellent all around performers, Bernard E. Berlinger who was second in the pole vault, fourth in the shot, tied for third in the broad jump and tied for fourth in the high jump. Leo Sexton of Georgetown was first in the 35 lb. weight, third in the shot put and tied for fourth in the high jump. The scores by these individuals were largely responsible for placing their teams in third and second positions respectively.

Each year sees a number of novelties or improvements in equipment. This year for the first time was tried out a device for exhibiting the number of the laps remaining to go in a race. The device was made by the office of the Association and was highly successful. A flood light was placed this year over the pole vault cross-bar and the bar was painted black and white. The vaulters reported that the lighting was excellent. The runway in the broad jump was for a considerable distance painted white so that the black take-off mark stood out more distinctly. An experiment was made with raising flags of the first three place winners coincident with the announcement of the point winners. The flags were too small but it would seem that with larger flags and a better method of display the feature would be very effective.

The records of individuals competing, the number of starters and the number of starts were as follows:
