

37<sup>th</sup> Indoor IC4A Championships  
March 1, 1958  
Madison Square Garden, New York, NY

New York, Mar. 1--Villanova, helped mightily by double doubler Ron Delany, retained its IC4A title in an expected close battle with Manhattan, the scores being 29 1/3 to 27.

Delany scored 10 big points by forsaking the mile and winning both the 1000 and the two-mile. It was a repeat performance from last year, when he was the first man even to try both events. And once again the all-winning Irishman gave the crowd a tremendous thrill as he had to hurry to get the job done in the second half of the double.

Ron was well in charge as he took the 1000 in 2:12.8 from Joe Soprano of Manhattan with a 440 yard kick after running last for the first two laps. But when he came back 51 minutes later he didn't have as much run and had a hard job in turning back little known Gene Martin of Manhattan. Ron kicked with a lap to go and passed Martin, but it was not an emphatic burst and his margin was not more than five yards. The time was an unfast 9:17.6.

Last year, Delany had a slower 1000 to work on (2:14.0), but his two mile triumph came over talented Lew Stieglitz. The latter showed Delany no mercy and piled on a good pace which forced Ron to run the final quarter in 57.5 for a new meet record of 9:06.6.

Villanova picked up most of its remaining points from Ed Collymore, who grabbed the dash in 6.2; and high jumpers Phil Reavis and Charley Stead who placed one-two. Reavis won at 6'8 $\frac{3}{4}$ ". George Sydnor, counted for big points in the 60, failed to make the finals.

Two first places were won by Manhattan as Tom Murphy captured the 600 in 1:11 and Joe Marchiony put the shot 54'11 $\frac{1}{4}$ ". Two second place relays added to their score. Murphy, who missed qualifying for the 600 last year, took no chances and ran his heat in 1:10.7, the fastest qualifying time in meet annals.

Making his eastern debut, Ed Hoyle of Marquette won the vault with a good 14'8" and a new personal record. NYU's Mike Herman had a good long jump of 24'7 $\frac{1}{2}$ ".
