IFC to Elect 3 Officers On Monday

Election of three Interfraternity Council officers will be held at 7:30 p.m. Monday in 219 Electrical Engineering.

The officers to be elected are a president, vice president and secretary-treasurer. The 12 candidates for the offices presented nomination speeches at last week's meeting.

The three nominees for the IFC presidency are James Hart, Accacia; Richard Moon, Beta Theta Pi, and Ronald Ross, Omega Psi Phi.

The four nominees for the vice presidency are Peter Dangerfield, Phi Delta Theta; Thomas Schneider, Phi Kappa Sigma; Le on a r d Sichel, Theta Xi; and John Spangler, Delta Chi.

Nominees for Secretary

The five nominees for secretary-treasurer are Jack Halpern, Phi Sigma Delta; Stephen Higgins, Sigma Chi; Pat Kinney, Pi Kappa Phi; Patrick Rielly, Kappa Delta Rho; and James Skok, Theta Kappa Phi.

Nomination speeches will be given by the candidates for the positions of student representatives to the IFC Purchasing Association Board of Directors.

Under the IFCPA constitution, its Board of Directors will consist of five undergraduate fraternity men and six other persons who are not undergraduate students.

To Be Named April 8

The election of these members, as provided for in the constitution, will be by a majority vote of IFC on April 8.

In other business, Joseph Eberly, IFC parliamentarian, will propose minor changes to the constitution regarding the title and method of appointment of the executive secretary.

There is a possibility that the position may become an elected one. Under the present system, the executive secretary is appointed by the IFC president.

If this proposal is approved, it would not go into effect until next year's elections.

Robert Nurock, Greek Week chairman, will present a final report of his committee to the council.

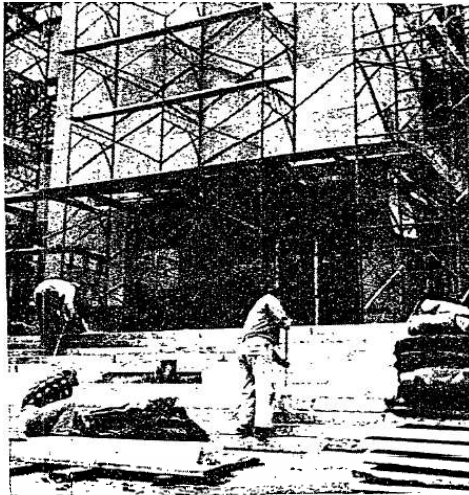

Lion Retreats After Letdown

The Nittany Lion, still sullen after his political letdown yesterday morning, has retreated into his cave muttering about the "unfair" tactics that defeated him.

Woodland sources say that he already proclaimed his victory in next year's All-University elections because of his strategic move in placing his name on the ballot today.

The Lion feels that this clever manipulation will end any underhanded attempts by the opposition to end his budding political career. He feels that his campaign was not extensive enough and is already planning a whistle-stop tour of the campus to meet the voters.

Today's forecast calls for cloudy skies and mild temperatures. The high should be between 45 and 50 degrees.

WORKMEN put the finishing touches on the steps of the Boucke Building. Painters will soon start work on the front of the building.

Painting Will Begin On Boucke Building

Painters will begin certain portions of the front of the new Boucke Building next week and the painters will be working "all over the place before long," according to Earl W. Rife, superintendent of Boucke construction.

With limestone facing completed and granite to be finished in a "few days," Rife said, the painters can begin on the front almost immediately. They will probably begin painting inside very shortly, he added, since the plastering is more than half done.

All of the interior, except the two large lecture rooms and the fourth floor corridor have been already plastered, according to David E. Hughes, plaster superintendent.

Workers installing wall tiling are about "99.9 per cent" done with their job, Rife said, and they're waiting now for a "few odd shapes" to finish it up.

The wall tiling is of three colors. Tan and "clearglaze" are being used in the rest rooms, and "ocular green" is being used for the halls and stair towers.

Installation of acoustic tiles for classroom ceilings will begin in April, Rife said, and will take at least six weeks to complete.

Acoustics in the halls and rest rooms will be subdued by a

sonilite-base acoustic plaster. This type of plaster is being used rather than a sand-base type because it has a greater degree of fire resistance.

Hughes said it has a 3-hour fire rating, which means that it can withstand high temperatures for a minimum of three hours without breaking down or decomposing.

Rife estimated that workers would begin installing floors in May. Asphalt tile will be put on the classroom floors, he said, and terrazo will be used for the lobby and rest rooms.

Landscaping on the new building will begin this spring. However, most of the landscaping work to be done this semester will be confined to preparing the ground and planting grass seed.

To prepare the ground, the division of landscape construction and maintenance will first cover it with 18 inches of top soil and then grade the slopes.

Fall Expansion Plans Released For Black Moshannon Airport

Expressing the "need for one centrally-located, well-equipped airport" to serve central Pennsylvania, state highway and aeronautics officials announced Thursday that expansion of Black Moshannon Airport is scheduled to begin in the fall.

This expansion is a thorn in the side of the State College Airport Authority, since such an undertaking may mean no state aid for a proposed airport for the State College-Bellefonte area.

The State College authority has been working with the DuBois authority in trying to

convince the state that central Pennsylvania would be better served by two airports—one in State College and one in DuBois—than by the expansion of Black Moshannon.

State Going Ahead The state, however, is going ahead with its plans.

Engineers have been consulted for plans and estimates on the expansion work, and the state is now waiting for a 50 per cent federal grant. The anticipated total cost is \$300,000.

Tentative plans call for extending the runways from 3000 to 5000 feet.

Speakers at the Thursday session said the expansion project on Black Moshannon is

Ike Willing to Join Baghdad Group

TUCKER'S TOWN, Bermuda, March 22 (AP)—President Dwight D. Eisenhower has told Prime Minister Harold R. Macmillan the United States is willing to join the Baghdad Pact's Military Committee in a move to check the spread of communism in the Middle East.

The action—disclosed today and hailed by the British—is sure to elate all the Middle East members of the five-nation pact.

It came as Eisenhower and Macmillan turned next to talks on plans to bolster Britain's atomic striking power to compensate coming reductions of military manpower dictated by economic necessity.

The President was expected to assure the Prime Minister during Mid-Ocean Club negotiations that the United States is prepared to help Britain develop a streamlined, atomic age force.

In advance of the Eisenhower-Macmillan session on that matter, the President discussed related problems at a lunch with key military-diplomatic advisers who flew in from Washington.

As for U.S. willingness to join the Baghdad Pact's military planning unit, the decision highly pleased the British.

In addition to Britain, the pact members are Iran, Iraq, Turkey and Pakistan. The alliance is designed as an anti-Communist defense shield across the northern tier of the Middle East.

Member nations have long been exerting much pressure on the United States to join the pact as a full member, or failing that, the military planning group. The United States already is a member of the Economic and Counter-subversive committees.

But the move to join the military unit also seemed sure to upset the Arab nations of Egypt, Jordan, Syria and Saudi Arabia, all hostile to the pact. It could also touch off Israel demands for parallel security assurances from the United States.

Foreign Secretary Selwyn Lloyd and Secretary of State Dulles met for two hours during the morning.

The senior board of LaVie will meet at 7 p.m. tomorrow in the LaVie office, 420 Old Main. Junior board candidates have been requested to submit a list including their address, All-University average and major activities to the LaVie office tomorrow.

3 Changes Suggested For Parking

Three immediate changes in the campus parking situation were suggested to All-University Cabinet Thursday night in a report of the Sophomore Advisory Board.

They are: That the lots next to the Jordan Fertility Flats (Area 50) and the skating rink (part of Area 43) be hard-surfaced.

That Shortledge Rd. be open to one-way traffic only, from midnight to 1 a.m. Saturday and Sunday mornings.

That an entrance to the lot behind Grange dormitory (Area 23) be constructed from Pollock Rd. through an existing driveway next to the Hetzel Union Building.

The changes were not presented as official recommendations, John Sopko, sophomore class president, said because the committee "would like more time to gather information concerning the peripheral lots." The completed report will be presented to Cabinet at a later meeting. Sopko said that he is planning to confer with Walter H. Wiegand, director of the Department of the Physical Plant.

The committee took a spot check of the peripheral parking areas to determine the availability of space in these areas. The check was taken during two "typical" days, the report said; one cold and wet Friday and the other a sunny and warm Tuesday.

The report indicated that 11 areas are not used beyond an average of 78.2 per cent of their capacity. It said that at least 374 parking spaces of a total 1713 were available at all times during the two days the parking areas were checked.

NCAA Tourney Tickets on Sale

Tickets for the National Collegiate Athletic Association wrestling tournament to be held March 29 and 30 in Pittsburgh are now for sale in Recreation Hall.

One hundred tickets for the semifinals on Saturday afternoon, at \$1.50 for reserved and \$1 for general admission seats, and 100 tickets for the Saturday night finals, priced at \$2.50 for reserved and \$2.00 for general admission seats are available.

Reserved series tickets for \$9 and general admission series tickets for \$4 may also be obtained in Rec Hall. The ticket office is open from 8 a.m. to noon and from 1 to 4:30 p.m. daily.

Tickets for the preliminaries Friday afternoon and the quarterfinals Friday night may not be bought here but will be on sale at the University of Pittsburgh at \$1 for general admission and \$1.50 for reserved seat tickets.
