Security Patrol

Lieutenant Smith and Captain Pimentel arrived in the designated district and initiated a thorough patrol using a marked patrol vehicle. The primary objective was to familiarize ourselves with the district layout as outlined in the provided map and assess key areas for ongoing activity and potential security concerns.

Patrol efforts began with a perimeter sweep, covering all major boundary lines and internal streets. Special attention was given to areas identified as high-traffic or high-risk, including the Youth Center, Sunland Liquor, and the intersection of El Camino and Del Paso Boulevard. These locations were noted for elevated activity and will remain focal points in ongoing patrol operations.

Initial observations helped establish a foundational understanding of the district's geography and activity patterns. Further patrols will refine route efficiency and enhance our presence in areas requiring increased visibility and deterrence.

Fire **Hostile Transient**

-In the alley behind 2533 Del Paso we found a warming fire in the middle of the alley being fueled by a black male adult. We advised him to put out the fire and he refused and became hostile. We advised him we were just trying to keep the fire out to prevent it from spreading. He continued to be hostile , claiming to be law enforcement and approaching us with large pipe or stick. We vacated the area proceeding to the front of the business and contacted Law enforcement.

Law enforcement arrived around 325am and we explained the situation. We then proceeded with Sac PD to the alley. They contacted the subjects and advised tbsm to leave and put out the fire. Sac PD stated the alley was public so they could take no further action and vacated the area.

NOTE: We were unable to get photos due to safety concerns and the aggressive nature of the transient.
