Dual Telescoping Monitor Arm
Available in Black

List Price \$290

Premium telescoping arms adjust in length to fit your monitors, accommodating 21" to 32" screens with ease. The adaptable nature allows for a snug side-by-side monitor positioning without fear of arms extending beyond the bounds of your desk, creating a setup that's flush with the wall. The heavy-duty arms overlap and feature fewer joints than typical mounts which creates a stronger, more durable hold for your monitors.
