UAW-LETG Student Of The Month Edition

Morganfield, Ky.

We here at LETG spend a lot of time promoting our program and making sure that we are meeting the needs or our students. This Newsletter is dedicated to them..

Without them there is no need for us. So when you read this edition of our newsletter, remember that all these students are...

Rock Stars!

MLR PROGRAM UPDATES

MLR Provides Service for the Center

IN THIS NEWSLETTER WE ALSO WANTED TO MAKE SURE THAT CREDIT IS GIVEN WHERE CREDIT IS DUE. SEVERAL STAFF MEMBERS HERE ON CENTER DEPEND ON OUR STUDENTS FOR AUTOMOBILE REPAIRS. OUR STUDENTS ARE NEVER PAID FOR THIS WORK AND ALWAYS DO IT WITH A SMILE ON THEIR FACES. WE SERVICE VEHICLES FROM THE NEWEST EMPLOYEE ALL THE WAY TO FORMER CENTER DIRECTORS!! WE ARE THANKFUL FOR THE ABILITY TO GIVE OUR STUDENTS MAINTENANCE AND LIGHT REPAIR WORK AND CONTINUE THE TRADITION OF BEING GOOD NEIGHBORS. OUR MLR PROGRAM HAS PERFORMED OVER 85 SERVICES SINCE OUR LAST NEWSLETTER.

I have had The UAW Program To do work on my Vehicle In The Past and found That they do Superior Work.
 The Staff is great & The Students ARE VERY COURTEOUS AND MAINTENANCE. EXCELLENT SOCIAL SKILLS.
 Today I came in because I thought that I needed A front End Alignment. ONCE THE Students Checked it out, they said I just need Rotors Replaced.
 I now have A smooth Driving Vehicle.

Instructor Training Events

Salt Lake City, UT. Seattle, WA. Plano, TX.

OUR T-TEN INSTRUCTORS HAD THE OPPORTUNITY TO ATTEND SOME GREAT TRAINING FROM THE TEAM AT TOYOTA. TIM, JODY, AND JASON ALL TRAVELLED TO SALT LAKE CITY UTAH FOR HYBRID VEHICLE TRAINING. JODY ATTENDED A DEVELOPMENT TEAM FOR A25A ENGINE CURRICULUM DEVELOPMENT IN SEATTLE, WHILE JASON WENT TO ETL TRAINING IN PLANO

Thanks Kevin

Thanks Winston

HEAVY DUTY TRUCK PROGRAM UPDATES

Ever wondered what it would be like to remove a transmission from a Semi-Truck? Well students in the UAW-LETC Heavy Truck repair program found out this month exactly what it takes.

A 2004 Freightliner classic came in with the problem of not shifting out of high range. Upon a thorough diagnostic of the truck it was found that the range valve in the shift rail of the transmission had worn a groove into its housing. To repair this damage the drive line and transmission had to be removed from the truck, and the shift rail and range cylinder replaced. While having the transmission removed, Students from the Heavy Truck repair program took care of some preventive Maintenance Issues, such as replacing a worn input shaft bearing and inspecting the clutch and pilot bearing.

LETC ANNOUNCEMENTS

Official Newsletter From LETC at Earle C. Clements

Our recruiting push takes us outside the U.S.

San Juan, P.R.

Several of our advanced training program have been getting a lot of interest lately and our push to recruit the next round of advanced automotive students never relents. Our T-Ten team has the opportunity to travel on a joint recruiting trip with members from Toyota's corporate team to visit Ramey Job Corps center in Puerto Rico.

Jason Krueger from the T-Ten department will lead the effort for UAW-LETC KY, while Bob Beck will join from UAW-LETC UT. They will have the opportunity to visit a recent graduate of the T-Ten program in KY in his home country. Something that was never thought possible a few shorts months ago has become a reality.

We really hope to bring some more of the amazing students from Puerto Rico back to our program to train and send the next generation of qualified and certified technicians back to Puerto Rico.!!!

NOW ENROLLING
