### Stroops Slastix Resistance Band with Clips

- Slastix "safety sleeve elastic" band is a patented design built to optimize the life of the resistance band; this design keeps users safe from breakage, prevent over-extension, and make it possible for anyone to work out with resistance bands
- Safety sleeve elastic technology makes it so users can avoid all the common hassles of resistance band exercise, such as snagging on body and neck hair, and damage such as nicks, cuts, and abrasions to the band
- This band features two built-in clips to hook onto any base, or hook the band onto itself to create a loop, which can be used for calf, hamstring, and glute exercises
- Available in five resistance options from 10 - 30 pounds and each with a length of 36 inches

- 10-7866 Stroops Slastix Resistance Band with Clips, Orange, 36", Very Light (10 lbs.)
- 10-7867 Stroops Slastix Resistance Band with Clips, Orange, 36", Light (15 lbs.)
- 10-7868 Stroops Slastix Resistance Band with Clips, Orange, 36", Medium (20 lbs.)
- 10-7869 Stroops Slastix Resistance Band with Clips, Orange, 36", Heavy (25 lbs.)
- 10-7870 Stroops Slastix Resistance Band with Clips, Orange, 36", Very Heavy (30 lbs.)

### Stroops Cuff Performance

- This safety sleeve elastic resistance band combines a toner handle with a standard carabiner clip end to create a portable and effective workout experience
- Each band comes with a signature Textured Grip Handle for maximum comfort and durability, and the other end features a standard steel clip to anchor anywhere
- Built to be durable and long-lasting with safety sleeve elastic technology
- Available in 5 resistance weights ranging from Very Light (10 pounds) to Very Heavy (30 pounds)
- Comes with two Slastix resistance bands of the chosen resistance weight

- 10-7880 Stroops Cuff Performance, Very Light Resistance (10 lbs.), Pair
- 10-7881 Stroops Cuff Performance, Light Resistance (15 lbs.), Pair
- 10-7882 Stroops Cuff Performance, Heavy Resistance (25 lbs.), Pair
- 10-7874 Stroops Cuff Performance, Medium (20 lbs.), Pair
- 10-7883 Stroops Cuff Performance, Very Heavy Resistance (30 lbs.), Pair

### Stroops Slastix Loop

- The Slastix Loop is a 28" continuous loop that can be wrapped around the body
- Slastix resistance band is protected from external damage for a much longer life, and the sleeve helps reduce irritation from the band being around your legs and arms
- Perfect for warming up, doing mobility exercises, or to get a full-body workout
- Comes in five resistances/weights, ranging from Very Light (10 pounds) to Very Heavy (30 pounds)

- 10-7857 Stroops Slastix Loop, Orange, Very Light (10 lbs.)
- 10-7858 Stroops Slastix Loop, Orange, Light (15 lbs.)
- 10-7859 Stroops Slastix Loop, Orange, Medium (20 lbs.)
- 10-7860 Stroops Slastix Loop, Orange, Heavy (20 lbs.)
- 10-7861 Stroops Slastix Loop, Orange, Very Heavy (30 lbs.)

### Stroops Body Weight Gym with Slastix

- Body Weight Gym consists of two textured grip handles with specialized loops, a pair of long cloth straps to anchor independently to any overhead anchor point, and a pair of 150-pound Slastix resistance bands
- Without Slastix, the Body Weight Gym will enhance stability and help users focus on maintaining your balance while building muscles
- With Slastix, the added instability will supercharge core muscles and intensify every movement of a workout

- 10-7885 Stroops Body Weight Gym with Slastix

### Stroops Fit Stick Pro Bar

- Features dual anti-slip handles; each end has a built-in ball-bearing swivel eyelet that can spin unobstructed a full 360 degrees to give you free range of motion in your exercise
- Simplistic design and functional anchor points make it a great fit as a cable machine attachment, or with any kind of resistance band
- Longer length is an ideal solution for training real athletic movements, such as practicing a hockey or baseball swing

- 10-7854 Stroops Fit Stick Pro Bar, 43"L x 1"D

### Stroops Slastix Textured Grip Handle

- Each handle has an attached D-ring clip end compatible with the Slastix resistance bands or with any other cable machine
- Texture of the grip enables you to keep a solid hold of your band during high-intensity workout sessions

- 10-7855 Stroops Slastix Textured Grip Handle

## balance training

### CanDo® balance pad

- Closed-cell foam provides excellent elasticity and energy absorption
- 16"L x 20"W x 2.5"H, blue

### CanDo<sup>®</sup> massage gun

- Powerfully delivers customized, handheld percussion massages
- Variable speed from 1,200 RPMs to 3,200 RPMs
- Includes carrying case and six interchangeable massage heads

includes six interchangeable massage heads

14-1770 massage gun, 110V

## heat therapy and IASTM

### Relief Pak® moist heat pack heating units with packs

- All heating units are insulated (including 4 and 6 pack)
- Durable seamless stainless steel for easy cleaning
- Heats moist heat packs in a water bath up to 170° F

#### 110 Volt 4 Pack Stationary Units

- 11-1960 metal top w/ 4 standard packs
- 11-1961 plastic top w/ 4 standard packs

#### 6 Pack Stationary Units

- 11-1962 3 standard, 1 neck, 2 oversize packs

#### 8 Pack Mobile Units

- 11-1964 8 standard packs

#### 12 Pack Mobile Units

- 11-1965 12 standard packs

#### 24 Pack Mobile Units

- 11-1966 24 standard packs

### SMART Tools, IASTM soft tissue therapy tools

- Use to assist in the treatment of soft tissue and scarring brought on by surgeries, injuries, and overuse of muscles
- Each tool is made of premium medical-grade stainless steel
- Use to treat a variety of body parts and sizes
- **5-Piece Set** includes: all five SMART Tools (STM1 Shark, STM2 Batman, STM3 Handlebar, STM4 Scanner, STM5 Captain Hook) in a canvas roll up case and jar of emollient

10-7980 SMART Tools, 5 piece set

### WaxWel® paraffin bath unit and wax

- Use for hand and wrist, foot and ankle, or elbow
- 6 lb (4 liter) unit with oversized tank accommodates a man's size 12½ foot
- Operating temperature 125-134°F, 110 Volt
- Kit includes unit, washable terry cloth mitt and bootie, 65 hand/foot plastic liners and (6) 1 lb wax blocks

#### 11-1601 WaxWel® unit only

- 11-1600 WaxWel® unit w/ 6 lb unscented kit
- 11-1603 WaxWel® unit w/ 6 lb wintergreen kit
- 11-1604 WaxWel® unit w/ 6 lb lavender kit

#### WaxWel® accessories for all paraffin units

- 11-1711 terry mitt (6 each)
- 11-1712 terry bootie (6 each)
- 11-1713 plastic hand/foot liners (100 each)
- 11-1710 set: mitt (1 each), bootie (1 each), liners (65 each)

### Therabath® paraffin bath unit and wax

- 6 lb paraffin capacity
- Hospital grade paraffin warmer w/ lid, grill and guide

#### Therabath® paraffin bath units with wax

- 11-1171 unit with 6 lb unscented wax
- 11-1170 unit with 6 lb wintergreen wax

#### paraffin wax bead refills (6) 1 lb packages

- 11-1174 Peach
- 11-1175 Lavender Harmony
- 11-1176 Cucumber Melon w/ Thyme
- 11-1177 Lemon
- 11-1178 Blooming Lilacs
- 11-1179 Vanilla Cupcake
- 11-1185 Warm Apple Sauce
- 11-1186 Grapenut Tea Tree
- 11-1187 Eucalyptus Rosemary Mint
- 11-1197 Wintergreen
- 11-1199 Scent Free

### Squid Go Active Cold Compression Therapy

- Designed for individual at-home use; warranty will not apply if used commercially
- Use for temporary relief of aches and pains
- Portable air compression pump is good for up to 15 uses on one charge
- Offers 4 preprogrammed levels of compression
- Squid Go Set includes pump, wrap and gel pack

#### upper extremity

	Squid Go set	gel pack only
Wrist	13-2480	13-2467

Ankle, Large	13-2471	13-2416

### Game Ready® cold compression

- **Game Ready® GRPro 2.1 control unit** uses active compression that squeezes greater benefits out of cold therapy alone. Circumferential wraps envelope the injury and pneumatic compression works to conform the wrap to the contours of the body, allowing for better surface contact and more effective cooling
- **Game Ready ATX® anatomical wraps** feature two internal chambers — one for air, one for ice water

13-2500 GRPro 2.1 control unit (includes AC adapter & 6 ft connector hose)

Game Ready® ATX® wraps		
upper extremity	lower extremity	mid body

11-0434	0.30 x 50mm	11-0438	Long, 0.40 x 100 mm
11-0435	0.30 x 60 mm	11-0439	Long, 0.45 x 135 mm

### ITO ES-130 3-Channel Electrotherapy Unit

- Portable electrotherapy unit with 3 independent output channels
- Compact, sturdy, high quality Japanese electro-therapy device is lightweight and fits in the palm of your hand
- Featuring a High/Low switch on the back of the unit, the switch is toggled too Low to facilitate use with needles or too High for MEA electro-therapy
- Offers three independently controlled output channels with adjustable frequency indicated by a flashing light
- Waveform is a unique biphasic pulse which has been designed to minimize electrolysis damage to the needle

### Serola Sacroiliac Belts

- Ideal for those suffering from acute or chronic back pain
- 3" wide material
- Breathable, moisture-wicking, and hypoallergenic materials

24-9260	Serola Sacroiliac Belt- Small (30"-34")
24-9261	Serola Sacroiliac Belt- Medium (34"-40")
24-9262	Serola Sacroiliac Belt- Large (40"-46")
24-9263	Serola Sacroiliac Belt- X-Large (46"-52")

### TG-Grip Elastic Tubular Support Band

- Skin-friendly, breathable fabric provides comfort and effective tissue support for the wearer
- Knitted tube adjusts to body contours

Size A	1.75" x 11 yds (4.5 cm x 10 m)	24-4015-1
Size B	2.33" x 11 yds (6 cm x 10 m)	24-4016-1
Size C	2.75" x 11 yds (6.5 cm x 10 m)	24-4017-1
Size D	3" x 11 yds (7.5 cm x 10 m)	24-4018-1
Size E	3.5" x 11 yds (8.75 cm x 10 m)	24-4019-1
Size F	4" x 11 yds (10 cm x 10 m)	24-4020-1
Size G	4.75" x 11 yds (12 cm x 10 m)	24-4021-1
Size J	7" x 11 yds (17.5 cm x 10 m)	24-4022-1
Size K	8.5" x 11 yds (21.5 cm x 10 m)	24-4023-1
Size L	13" x 11 yds (32.5 cm x 10 m)	24-4024-1
Size M	15" x 11 yds (37.5 cm x 10 m)	24-4025-1

### Strapit Stretch Band elastic adhesive bandages

- **Stretch Band Plus** is made of 69% cotton and 31% polyamide. Latex-free adhesive heat activated. **Professional Stretch Band Light** features light cotton support and latex-free adhesive. Ideal to use as an overwrap for extra compression
- **Professional Stretch Band Heavy** features a red line to ensure accuracy when applying to skin

<b>Stretch Band Plus</b>		
1" x 5 yds, box of 12 rolls		24-0245

**CAN DO** Treatment Furniture

finish options natural dark cherry

upholstery color options

black slate blue royal blue warm gray desert tan

**CanDo® Hi-Lo treatment tables**

- Electric adjustable height 18.5" to 35.5"
- 450 lb weight limit

15-4285	1 section, standard (72"L x 27"W)
15-4286	2 section, with adjustable backrest (72"L x 27"W)
15-4287	2 section, with drop section (76"L x 27"W)
15-4288	3 section, 73"L x 29"W

**CanDo® hi-lo upholstered mat table**

- Electric foot-controlled height adjusts from 22" to 34"
- Ultra-strong uniframe base; powder-coated steel frame
- 2" foam padding; 600 lb weight capacity
- Choose upholstery color from table above

15-4251	84"L x 48"W
15-4252	84"L x 60"W
15-4253	98"L x 72"W

**CanDo® pneumatic stools**

- Round, 3" upholstered swivel seat allows easy access to the patient
- Gas spring for easy raising and lowering of stool (18"-22")

07-7063	without back
07-7067	with back

**CanDo® treatment table with shelf**

- Hardwood legs, laminate shelf
- 2" firm foam padding
- 400 lb weight capacity
- Choose upholstery color and finish from table

<b>flat top</b>	
15-4250	72"L x 30"W x 31"H
<b>adjustable back</b>	
15-4232	72"L x 30"W x 31"H
15-4233	78"L x 30"W x 31"H
15-4225	78"L x 30"W x 31"H (black top only)

**CanDo® upholstered mat table**

- Features solid hardwood legs and plywood frame
- 6 leg design with center support adds stability
- 2" ultra-firm, foam padding; 700 lb weight capacity
- Choose upholstery color from table

15-4235	84"L x 48"W x 18"H
15-4236	84"L x 60"W x 18"H
15-4237	96"L x 72"W x 18"H

**CanDo® staircases**

- Molded, solid hardwood handrails
- Safety treads on steps
- Two-sided staircase patients can ascend a descend without turning; One-sided staircase saves space
- 500 lb weight capacity

15-4230	two-sided staircase	54"L x 34"W x 48"H
15-4238	one-sided staircase	56"L x 34"W x 60"H

**CanDo® platform mounted parallel bars**

- Parallel bars are mounted to a durable 1.5" hardwood base
- 400 lb weight capacity
- Width adjusts from 18" to 28"; height adjusts 26" to 39"

15-4239	7 foot length
15-4240	10 foot length
15-4241	12 foot length

## evaluation equipment

### BIMSTM digital (Load-Cell) 5-position dynamometers

- Force is measured using load-cell digital technology that gives more accurate, repeatable, consistent measurements with  $\pm 1\%$  accuracy
- 5-position hand grip / paddle accommodates different hand sizes and tests
- Extended testing capacity (300 lb grip / 100 lb pinch) is designed for the strongest and weakest patients
- Subject/Test information can be inputted at time of test: dominant hand, handle position, exertion/rest times, units (lb/kg)
- 3-piece sets include grip dynamometer, pinch dynamometer, plastic finger goniometer (12-1014), carry case, instructions and norms
- **Functional Model** does everything a standard hydraulic dynamometer can do with greater accuracy and repeatability. Use to view live strength readings with the **Max Force** test.
- **Clinic Model** is ideal to perform timed tests which are calculated and saved on the device. Includes the **Max Force**, **Quick**, and **GST** tests.

12-0072	grip dynamometer	functional
12-0082	5-position pinch gauge	functional
12-0092	3-piece hand evaluation set	functional
12-0070	grip dynamometer	clinic
12-0080	5-position pinch gauge	clinic
12-0090	3-piece hand evaluation set	clinic

### Baseline® The Monitor® exercise feedback

- Use to detect changes in air pressure during exercise giving real-time visibility of progress when performing exercises correctly
- Ideal for core stabilization training
- Pressure gauge measures from 0 - 4 PSI (0-200 mmHg) analog pressure with an accuracy of  $\pm 0.06$  PSI ( $\pm 3$  mmHg)

13-1520 Baseline® The Monitor

### Baseline® 5 position hydraulic hand grip dynamometers

- Gives accurate grip strength readings without the subject being able to "feel" the handle move
- Readings in lb and kg
- Includes protective case

12-0241	200 lb LITE®	1 year warranty
12-0240	200 lb Standard	2 year warranty
12-0221	200 lb HD®	5 year warranty

### Baseline® electronic Smedley dynamometer

- Digital, lightweight smedley style dynamometer offers accurate grip strength results
- 5-preset grip sizes
- 200 lb (90 kg) capacity
- Saves/stores results for up to 19 users

12-0286 digital smedley (200 lb / 90 kg)

### Baseline® 9-hole pegboard

- Improve fine motor coordination and observe quality of movement and speed
- 14 pegs stored in two compartments within board

12-3141 9-hole pegboard

### Baseline® fingertip pulse oximeters

#### Standard Adult

- Measures pulse and SpO<sub>2</sub>
- Compact and lightweight
- Includes lanyard and 2 AAA batteries

12-1926 fingertip pulse oximeter

#### Deluxe Adult

- 2-color screen displays SpO<sub>2</sub>, PR, waveform and pulse bar
- 6 display modes with adjustable brightness; Auto shut-off

12-1927 deluxe pulse oximeter

#### Pediatric

- Perfect for pediatric use
- Measures pulse and SpO<sub>2</sub>
- 6 display modes with adjustable brightness

12-1935 pediatric pulse oximeter

**Baseline® Bubble® inclinometer**

- Place inclinometer near the joint to measure, turn dial until scale reads 0, take joint through its range, read range from dial
- Standards codified in "AMA Guide to the Evaluation of Permanent Impairment, third edition"

12-1056 Bubble® inclinometer (each)

**Baseline® scoliometer**

- Measure degree of rotation of a deformity of the back
- Screen people to refer for further medical evaluation
- 7½" L x 3½" W
- Includes storage pouch

12-1099 scoliometer

**Activforce 2**

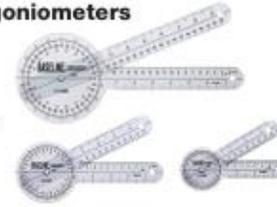

- Activforce 2 and companion app is an advanced dynamometer and inclinometer in one that allows you to perform both strength and range of motion tests so that you can measure and track your patients' progress
- Measures peak force, average force, range of force, range of motion, both AROM and PROM and compares right and left symmetry for both strength and range of motion measurements
- Comes with carrying case, round pad, and an arched foam pad attachment
- With Activforce 2 you can view in-app data summary as well as view, download and print pdf summary reports from the Activforce 2 online dashboard
- Measures up to 200 kg in strength with force accuracy within +/- 0.6 kg + 5% of the applied force

12-1270 Activforce 2

**Baseline® plastic goniometers**

- Scale reads in 1 degree increments
- Linear scale reads in centimeters and inches

12-1000 12" ISOM 360°  
12-1001 8" ISOM 360°  
12-1002 6" ISOM 360°

**Baseline® Tactile™ monofilament**

- Measure sensitivity, nerve damage, and changes in neurological status
- Comes with protective case

size	force
12-1645	3.61 0.4 gm

**Lafayette MMT (manual muscle tester)**

- Measures peak force and time to achieve it, total test time, time within selectable ranges and average force
- Comes with 3 push pads
- 300 lb (136 kg) capacity
- Easy-to-read graphical LCD display reads in lb, kg, and newtons

12-0380 Lafayette MMT

**MicroFET® 2 MMT (manual muscle tester)**

- Displays peak force and time duration
- Versatile push attachments ensure proper muscle isolation for increased testing validity
- 300 lb capacity
- Includes: 3 push attachments, Test forms, Wall chart, Case, two 3.7LV lithium batteries, AC adapter, Battery charger
- Connects via bluetooth with plug 'n play software

12-0381W MF2, wireless  
12-0381WC MF2, with clinical software

**MicroFET 3™ MMT/ inclinometer**

- Manual muscle tester and inclinometer in one unit
- Provides fast, accurate and reliable digital results for MMT and ROM testing
- 150 lb force capacity
- Includes: 3 push attachments, test forms, wall chart, case, 3.7V lithium ion battery and AC adapter

12-0382W MF3, wireless  
12-0382WC MF3, wireless with clinical software

### Kinvent K-Push

- K-Push is a lightweight, versatile and connected hand-held dynamometer that's designed to deliver quick strength assessments on the go
- Allows you to assess the maximum and isometric strength of almost 40 muscle groups with its range of accessories
- Access the force peak and the maximal capacity of a muscle group in a specific situation

15-4342 Kinvent K-Push

### Kinvent K-Grip

- Hand-held dynamometer used to measure and assess grip strength
- Must-have for neurological rehabilitation, tracking fatigue in high-performance athletes, fighting the aging process, and so much more
- Evaluate grip strength in seconds, as the sensors provide real-time feedback through Kinvent Physio app
- Max force will be calculated from the force peak

15-4343 Kinvent K-Grip

### Kinvent K-Bubble

- An innovative pressure dynamometer, K-Bubble is the ideal tool to objectively measure patients' ability to exert pressure with any body part, as it transforms pressure variations in force measurements
- Ideal for tests on the adductors or the cervical rachis
- Achieve isometric strength through the peak force as well as the average force for a specific muscle or muscle groups
- Assess muscle strength efficiently by plugging your K-Bubble into any inflatable touch ball
- Measure efficiently cervical and overall neck health by plugging your K-Bubble into any inflatable cushion

15-4344 Kinvent K-Bubble

### Kinvent K-Myo

- Non-invasive EMG sensor helps shorten the rehabilitation process by chasing weakened muscle groups, transcending muscle activation and tracking patient's improvement

15-4348 Kinvent K-Myo  
15-4341 Kinvent K-Myo Duo Pack

### Kinvent K-Pull

- K-Pull is a traction dynamometer that's designed to measure the isometric strength of powerful muscle groups, along with strength ratios, endurance or muscle symmetry from any angle with, its included accessory kit
- Measure the force peak to assess the maximal capacity of a muscle group in a specific situation

15-4347 Kinvent K-Pull

### Kinvent K-Move

- K-Move is a connected goniometer designed to take measurements of range of motion
- With its built-in inertial sensor, it is a perfect tool for monitoring the rehabilitation of a joint's functional capacities
- Customizable games can be adjusted in terms of percentage of the max evaluation, depending on the assessment results; 10 levels of difficulty for each game

15-4346 Kinvent K-Move

### Kinvent K- Force Plates

- Portable force plates are perfect for measuring static and dynamic balance in a wide range of movements (like stance and squats)
- With its resistance and its lightweight design, it is ideal for assessment and exercise in proprioception
- Customizable games can be adjusted in terms of percentage of the max evaluation, depending on the assessment results; 10 levels of difficulty for each game
- Measure average distribution, instant maximal ground reaction force and weight distribution depending on the intensity of the applied forces

15-4345 Kinvent K- Force Plates

### Kinvent K-Deltas

- K-Deltas force plates measure and improve athletes' physical performance and help physiotherapists manage their return to sport
- Measure performance in a totally versatile and fast way compared to any other system market, thanks to their design, their load capacity, which is 2 tons per delta, and their high sampling rate
- Assess jump height and obtain indicators on the impulse phase through the counter movement jump and squat jump protocol
- Connected with Bluetooth to Kinvent Physio App, the K-Deltas help you manage the most efficient return to play process for your athletes

15-4349 Kinvent K-Deltas  
15-4350 Kinvent K-Deltas XL

### Kinvent Physio Sports Pack

- One-year subscription to the EXCELLENCE LICENCE included
- Pack includes: K-Push (Twin Handle), K-Push (without Twin Handle), K-Bubble, K-Grip, K-Pull, K-Move, K-Force Plates, Plates frame, Bar accessory, and a Duffle bag

15-4332 Kinvent Physio Sports Pack

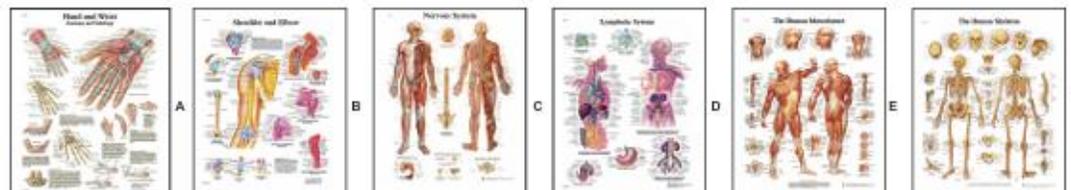

### Kinvent Rehab Pack

- One-year subscription to the PREMIUM LICENCE included
- Pack Includes: K-Push (Twin Handle), K-Force Plates, K-Grip, K-Move, K-Bubble, K-Pull and a Duffle Bag

15-4331 Kinvent Rehab Pack

**full size skeletons**

**Sam the Super Skeleton**

- Shows muscles, ligaments, and physiology
- Features 3-part skull, removable arms and legs, fully flexible vertebral column, hand-painted muscle origins and insertions, numbered bones, flexible joint ligaments and an L3-L4 disc prolapse

**Stan the Classic Skeleton**

- Features 3-part skull, removable arms and legs

**Max the Muscle Skeleton**

- Shows structural interaction between bones and muscles

**Leo the Ligament Skeleton**

- Shows structural interaction between bones and ligaments

**Phil the Physiological Skeleton**

- Shows a reproduction of the joints system

- 12-4503 Sam: super skeleton (w/ bones, muscles, ligaments and physiology)
- 12-4500 Stan: classic skeleton (bones only)
- 12-4501 Max: muscle skeleton (w/ bones and muscles)
- 12-4502 Leo: ligament skeleton (w/ bones and ligaments)
- 12-4504 Phil: physiological skeleton (w/ hanging stand)

**Shorty the mini skeleton**

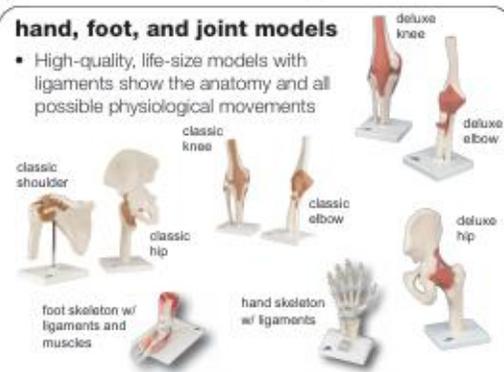

- Features 3-part skull, removable arms and legs, and a flexible spine with soft intervertebral discs
- **Muscled Shorty** has painted muscle organs and insertions
- Measures: 37", 4 lb

- 12-4505 Shorty, hanging
- 12-4506 Shorty, on base
- 12-4507 muscled Shorty, hanging
- 12-4508 muscled Shorty, on base

**hand, foot, and joint models**

**EZ Communication Boards**

- Allows effective communication between the patient and caregiver
- For patients who have difficulty speaking or using traditional communication methods

- 12-4640 picture board
- 12-4641 English word board
- 12-4642 Spanish word board

## fitness and treatment furniture

### CanDo® Magneciser® pedal exerciser

- Quiet, magnetic, bi-directional operation with variable resistance (turn knob to change resistance)
- 5-function digital display

01-8030 pedal exerciser

### CanDo® deluxe pedal exerciser

- Bi-directional exerciser can be used for upper- or lower-body pedaling
- Resistance can be adjusted with one easy-to-use dial
- Fully automated electronic monitor with LED display that shows: speed, distance (per session), timer, odometer (cumulative distance), calories burned, scan mode

10-0717 deluxe pedal exerciser

### CanDo® Rickshaw™ rehab exerciser

- Fits all wheelchair widths
- Improves upper body strength, especially the deltoids and triceps
- Unique design allows it to be used facing either forwards or backwards
- Arms can be used individually or in tandem by adding crosspiece
- Free weights sold separately

10-0690 CanDo® Rickshaw™

### CanDo® weight and mirror rack

- Holds 6 band or tubing rolls up to 50 yds
- Dumbbell holding rods are angled; holds up to 22 dumbbells
- White pegboard can hold up to 48 cuff weights

#### Accessories include:

- 16 cuff weights (2 ea: 1, 1.5, 2, 2.5, 3, 4 & 5 lbs; 1 ea: 7.5, 10 lbs)
- 20 dumbbells (2 ea: 1 - 10 lbs)
- 5 - 50 yard CanDo® Exercise Band Rolls (yellow - black)

15-4255 with accessories  
15-4234 without accessories (Rack Only)

### CanDo® UBE pedal exerciser

- Use on a tabletop for upper body exercises or on the floor for lower body exercises
- Features bi-directional handles and adjustable resistance dial

tilting display

- Easy-to-read, tilting display

#### Standard model:

Includes handles with adjustable straps that can be used for the hands and feet

#### Premium model:

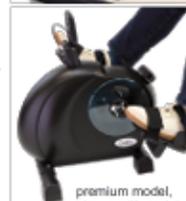

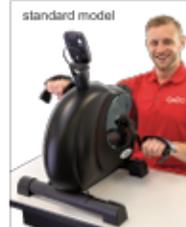

Includes hand cranks and foot pedals that have an adjustable length that can lengthen or shorten the rotational movement.

**Hand crank set** allows for comfortable upper body exercises.

**Pedal set** has a large surface area with adjustable straps for your feet.

10-0708 CanDo® UBE, standard model

10-0709 CanDo® UBE, premium model

premium model, shown with pedal set

### Bosu® balance exerciser

- Versatile balance trainer
- Use as a board or a ball
- Inflate/deflate ball to change instability
- 25" diameter

30-1901 exerciser with DVD and 20 page manual

### CanDo® rebounders

- Returns ball with speed, force and angle consistent with throw
- Adjustable incline angle: 0, 28, 33, 39 & 42 degrees
- Built-in floor rack to store balls
- Minimal assembly required
- Can ship by UPS or FedEx
- Round Rebounder: 40 lbs; 38½"L x 36"W x 42"H; 27" diameter surface
- Square Rebounder: 59 lbs; 39½"L x 39½"W x 52½"H; 39" diagonal surface (27.5" x 27.5")

10-3137 round rebounder with balls and vertical metal rack

10-3133 square with balls and vertical metal rack

**SciFit StepOne™  
recumbent stepper**

- Smooth, linear movement with start and stop motion
- Low starting resistance
- Neutral starting position
- Seat moves forward and backward and swivels 360°, locking at each 90° angle

10-6090 standard seat  
10-6038 premium seat  
10-6039 bariatric seat

**SciFit PRO2  
total body exerciser**

- Offers upper, lower or total body exercise
- Dependent motion allows stronger muscles to help weaker ones
- Adjustable upper and lower cranks
- Removable seat; step-through easy access
- Inclusive fitness model features: color-coded adjustments, Braille locators, wheelchair ramp, premium seat, low boots

10-6056 premium seat  
10-6057 bariatric seat  
10-6063 inclusive fitness model

**SciFit PRO1000  
upper body exerciser**

- Seated upper body exerciser
- Adjustable arm cranks with 3 range of motion settings
- Removable seat; step-through accessibility
- Bi-directional resistance; low starting resistance

10-6048 premium seat  
10-6049 bariatric seat

**Total Gym Encompass PowerTower**

- Features adjustable glide board for high-performance sports-specific and rehabilitation training
- Remote-control handles allow touch-control level adjustments while exercising
- Machine can incrementally load a range of bodyweight from 1% to 72%
- **Encompass PowerTower** includes: Closed Chain Platform, BAPS Adapter, Retractable Dip Bars, Squat Handle Bar and Slide Distance Regulator
- The **Clinical Complete Package** adds the Press Bar, Weight Bar, SCRUNCH and Leg Pulley System

10-7220 Total Gym encompass PowerTower clinical complete package  
10-7221 Total Gym encompass PowerTower

**Inflight Fitness functional trainer**

- Perform a wide range of functional exercises
- Pulleys are adjustable for arm and leg exercises
- 2 weight stacks hold 150 lbs each; ten 10-lb plates, five 5-lb plates
- Two nylon strap handles and chin-up bar come standard
- Available rear steel shrouds cover each weight stack
- Accessory kit includes: long bar, ankle strap, triceps rope, short bar, and functional handle

10-7123 functional trainer with rear shrouds

**Inflight Fitness  
adjustable cable column**

- Angled column design allows more functionality
- Features: 18 height positions, dual handles and 4:1 weight resistance ratio
- 200 lb weight stack
- Full steel shrouds cover entire weight stack

10-7120 adjustable cable column with full shrouds

### NuStep, T6 Recumbent Cross Trainers

- Offers an upper and lower body, low impact workout while in a safe, secure seated position
- 15 levels of resistance
- Low step-through design
- Dual-screen console with touchscreen display
- Supports up to 500 lbs

10-5960 T6 PRO recumbent cross trainer, 18" wide seat  
10-5961 T6 MAX recumbent cross trainer, 22" wide seat

### NuStep, T4r Recumbent Cross Trainer

- Use arms and legs alone, or lock together
- Features 10 levels of resistance, 2 workout programs, 360° swivel seat

10-5965 T4r Recumbent Cross Trainer

### NuStep, RB8 PRO Recumbent Bike, 18" Width Swivel Seat

- 15 levels of resistance with low starting force and low step-through design
- Seat swivels 360° and reclines 12° for comfort
- Dual-touchscreen console with HD display

10-5958 RB8 PRO Recumbent Bike, 18" Width

### NuStep, UE8 Upper Body Ergometers

- Use standing, seated in a chair, or in a wheelchair
- Dual HD touchscreen
- Bi-directional operation; 5 levels of resistance
- Seat swivels 360° and has a contoured back that reclines 12°

10-5986 UE8 PRO upper body ergometer, 18" wide seat, 500 lb capacity  
10-5987 UE8 MAX upper body ergometer, 22" wide seat, 600 lb capacity

### NuStep, T5 Recumbent Cross Trainers

- Offers an effective upper and lower body, low impact workout while in a safe, secure seated position
- Allows arms to be used alone, legs alone or both together
- Easy-to-read LCD color display, allows users to change resistance levels, select different workout programs, and view current workout stats
- 15 levels of resistance

10-5962 T5 recumbent cross trainer  
10-5963 T5XR recumbent cross trainer  
10-5964 T5XRW recumbent cross trainer, extra wide 22" seat

#### T5 Recumbent Cross Trainer

- Seat swivels 360°, locking every 45-degrees for easy access
- Includes 8 workout programs
- Supports up to 500 lbs (227 kg)

#### T5XR & T5XRW Recumbent Cross Trainers

- Padded seat swivels 360° and reclines 10-degrees
- Rubber hand grips rotate 40°
- T5XRW has an extra wide 22" seat

### Cascade ultra runner treadmills

- Self-powered curved treadmill allows users to walk or run at their own pace
- Comfortable handlebars accommodate all users
- Screen displays level, time, distance, calories, watts, HR and speed
- Premium anti-slip molded rubber slats with sealed bearings create an exceptionally quiet and smooth running surface and reduce friction wear and tear
- **Runner model** has 4 levels of magnetic resistance for more intense training

10-7280 Cascade ultra runner treadmill

### Spirit, CT800 treadmill with medical handrails

- Large non-folding surface area (22" x 60") is great for walkers and runners
- Heavy duty frame for stability and durability
- Medical handrails provide added support

10-6079 CT800 treadmill 84"L x 35"W

### Spirit, XT685 treadmill

- Non-folding, extra large 60"L x 22"W workout surface
- Wireless heart rate monitoring

10-6070 XT685 treadmill 78"L x 32"W

### Stroops Optimill

- Optimill is motorless and is driven forward by the force of the user's foot while the body is held in place by a shock absorbent Stastix resistance band attached to a steel spine
- While running on the Optimill, the wireless Polar HR monitor mounted in front helps track your speed in real time, along with heart rate, distance, and more
- The belt is made with shock-absorbent slats to significantly reduce stress on joints
- Weighs only 220 pounds - 50 pounds lighter than the average treadmill

10-7871 Stroops Optimill

### Boost 2 Core Microgravity Treadmill

- Allows allow you to run or walk anywhere from 100% to as low as 20% of your bodyweight, in 1% increments
- Ideal for rehabilitation, elite training, and return-to-running needs with natural movement patterns
- Features include 12 mph max forward speed, 0-15% grade for terrain simulation, and BFR functionality
- Compact 82" x 42" footprint with simple controls, accommodating users from 4'6" to 7" tall and supporting up to 400 lbs for running and 800 lbs for walking

10-4730 Boost 2 Core Microgravity Treadmill, White, 110/120V  
10-4731 Boost 2 Core Microgravity Treadmill, Gray, 110/120V

### Theragun Pro Plus

- Merges six therapies - percussive therapy, near infrared LED light therapy, vibration therapy, heat therapy, cold therapy (sold separately) and breathwork - for limitless treatment options
- Equipped with step-by-step routines and a built-in biometric sensors
- 3 vibration speeds relieve joint pain and treat sensitive areas
- Built-in near infrared LED light therapy can be combined with other therapies
- Includes 5 massage attachments (Standard Ball, Dampener, Thumb, Micro-point and Wedge), a Heat therapy attachment, a Vibration therapy attachment, QuietForce solution, a USB-C charging cable, and a Travel pouch
- Cold attachment sold separately; comes with 3 temperature settings: 41, 50, 59 degrees F

14-1855 Theragun Pro Plus  
14-1856 Theragun Pro Plus Cold Attachment

### Theragun Sense

- Whisper-quiet, lightweight and equipped with a triangle grip so you can easily reach anywhere on your body
- 12mm percussive massage therapy can relieve daily pain, stress and soreness
- LCD screen acts as your personal guide, displaying easy to follow step-by-step massage and breathwork routines
- Therabody app features 3 visually guided breathwork routines, relaxing TheraMind sound therapy and haptic vibration cues directly on the device
- Built-in biometric sensor for on-device heart rate readings
- Includes: 4 massage attachments (Standard Ball, Dampener, Thumb and Micro-point), a USB-C charging cable, and a Travel pouch

14-1857 Theragun Sense, White  
14-1858 Theragun Sense, Black

### Theragun Mini

- Compact, lightweight, ultra-portable design
- Uses moderate 12mm percussive massage therapy to relieve pain, stress and tension
- Features an easy to hold ergonomic triangle grip and 3 speeds with LED indicators to manage massage speed; Connect to the Therabody app for on-the-go guided routines
- Includes: 3 massage attachments (Dampener, Standard Ball and Thumb), USB-C charging cable, and Travel pouch

14-1863 Theragun Mini, Desert Rose

### RecoveryAir Jet Boots

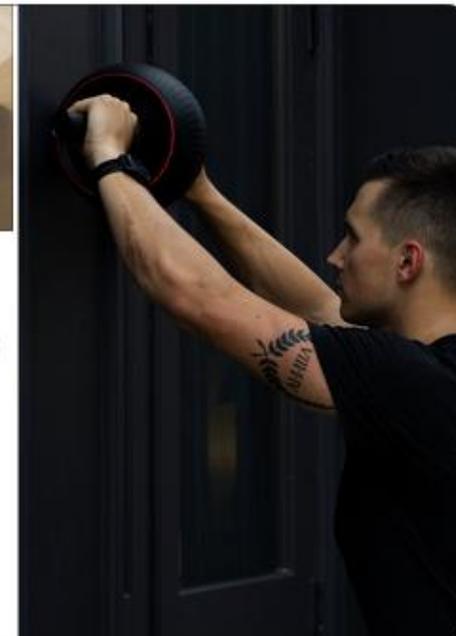

- RecoveryAir JetBoots makes recharging your legs more convenient than ever, with a fully wireless design and integrated internal pumps
- Use to boost circulation and lymphatic drainage, reduce delayed onset muscle soreness, decrease swelling and stiffness, and relieve muscle fatigue
- Integrated one-touch control panel and TruGrade Technology allows for the safest, and most precise application of pressure
- Features 4-time intervals (20 min, 40 min, 60 min, and continuous) and 4 pressure settings (25, 50, 75, 100 mmHg)
- Long-lasting battery life (240-minutes)
- Includes 2 compression boots with integrated pumps, a 36W charger, splitter charging cord and a storage pouch

14-1831 RecoveryAir Jet Boots, small (fits 5' to 5'6" tall)  
14-1832 RecoveryAir Jet Boots, medium (fits 5'6" to 6' tall)  
14-1833 RecoveryAir Jet Boots, large (fits 6' to 6'6" tall)

### ZeroWheel

- Motorized wheel provides adaptive resistance and assistance for strength training
- Compact, portable design delivers full-body workouts anywhere
- Free companion app offers tutorials, tracking, and custom workout modes
- Accessory pad provides a soft surface for floor workouts

10-8120 ZeroWheel  
10-8121 ZeroWheel accessory pad

### TheraTouch™ professional 4-channel system

- Four channel stim (EX4) and combination stim and ultrasound (CX4) clinical devices
- Menu-driven color screen interface intuitively groups and displays comprehensive clinical protocols as well as user-defined manual operation

**CX4 4 channel stim / ultrasound combo**  
13-3391 CX4 unit  
13-3392 CX4 unit w/ cart

**EX4 4-channel stim unit**  
13-3371 EX4 unit  
13-3372 EX4 unit, w/ cart

### Quattro™ 2.5 4-channel stim

- Waveforms include: TENS, EMS, 2-pole interferential, 4-pole interferential and Russian
- Includes: 8 sets of electrodes, 8 sets of rubber electrodes with sponges, 8 straps, 4 sets of lead wires and manual

13-3370 Quattro™ 2.5 4-channel stim, 110 V

### FabStim® TENS 2-channel

- 3 modes (Burst, Modulation, Constant) and timer
- Adjustable pulse rate and width
- Includes carry case, stimulator, lead wires, 4 self-stick electrodes and 9V battery

13-1323 analog TENS

### FabStim® digital TENS 2-channel

- 5 modes: Burst, Modulation, Constant, MRW, SD1 and SD2
- Adjustable pulse rate and width
- Includes carry case, stimulator, lead wires, 4 self stick electrodes and 9V battery

13-1308 digital TENS

### THERADOT deep oscillation therapy device

- Using an electrostatic field, this device creates deep but pleasant soft oscillation to the areas being treated including connective tissue and blood and lymph vessels
- Aids in preventing a buildup of fluids to help accelerate the healing process
- Features intuitive buttons and large, easy to read multi color screen
- Highly portable device comes standard with device stand

13-1580 THERADOT deep oscillation therapy device

### ComboCare™ 2-channel stim / ultrasound combo

- 5 treatment waveforms: IF 4-pole, IF 2-pole, Russian, EMS and TENS
- Preset programs: 50 wave, 20 ultrasound

13-3390 ComboCare™ stim and ultrasound, 110 V

### VitalStim® PLUS 4-channel stim

- Rehab or strengthen swallowing muscles
- Preset or customize programs
- Screen Mirroring helps clinicians guide patients through personalized, targeted swallowing exercises
- sEMG Biofeedback System projects progress onto computer or tablet screen
- Each VitalStim® electrodes pack contains 4 electrodes and 2 clean cote towelettes; Can be used with the VitalStim® and VitalStim® PLUS

#### unit

68-0066 VitalStim® Plus electrotherapy system

#### electrodes

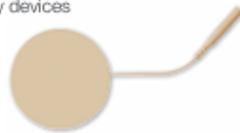

67-0039 VitalStim Adult Electrodes, 10 pack  
67-0037 VitalStim Adult Electrodes, 12 pack  
67-0014 VitalStim Adult Electrodes, 30 pack  
67-0017 VitalStim Adult Electrodes, 50 pack

### FabStim® electrodes

- Self-adhesive (Tyco® gel) electrodes good for 8-12 uses
- Compatible w/ electrotherapy devices

#### bag of 4

13-1288-1 3" round  
13-1287-1 2" round  
13-1291-1 2" square  
13-1293-1 2" x 3.5" rectangle

### Intelect Transport 2

- Ergonomically designed, lightweight system with built-in rechargeable battery-powered pack is designed to fit any tabletop, cart, or mobile usage
- User-defined memory positions can save up to 15 custom protocols with independent controls for each of the two stim channels
- Offers 1 and 3.3 MHz ultrasound with interchangeable applicator sizes - the transmitters have LED coupling light in 2 cm<sup>2</sup>, 5 cm<sup>2</sup>, and 10 cm<sup>2</sup> sizes
- Quick connect magnetic cart attachment allows you to conveniently and easily transfer the system from the clinic to the field
- Provides a range of therapeutic treatments - relaxation of muscle spasms, prevention or retardation of disuse atrophy, increased local blood circulation, maintaining or increasing range of motion, and relief of chronic pain

02-7870 Intelect Transport 2 Electrotherapy/Ultrasound Combo System  
02-7871 Intelect Transport 2 Ultrasound System

#### Accessories

02-7860 Intelect Transport 2 Accessory, Cart (6 bins)

### Intelect Legend 2, Electrotherapy/Ultrasound Combo System

- Two-channel and four channel combo electrotherapy systems can be used with or without an optional cart
- High resolution 7" capacitive touch screen allows access to an intuitive user interface and extensive anatomical library
- Suggestions for the placement of electrodes and areas for ultrasound applicator placement are easy to use and find in the guidelines
- Touch screen gives real time information as to the progress of the individual treatment and a summary after treatment ends
- Features an extended battery life, magnetic cart attachment and ergonomic handle
- For electrotherapy, 12 waveforms are included for use: VMS, Interferential, Pre-modulated, Symmetrical Biphasic, Asymmetrical Biphasic, HAN, Microcurrent, VMS Burst, Russian, Direct Current, High Volt and VMS FR
- 1MHz and 3MHz ultrasound frequencies are also available for use independently or in combination with electrical stimulation

02-7850 Intelect Legend 2, Two Channel Electrotherapy/Ultrasound Combo System  
02-7851 Intelect Legend 2, Four Channel Electrotherapy/Ultrasound Combo System  
02-7867 Intelect Legend 2, Four Channel Electrotherapy/Ultrasound Combo System with Cart

#### Accessories

02-7860 Intelect Legend 2 Accessory, Cart (6 bins)

### Plastic Utility Cart, 3-Shelf, Grey

- Can handle tough, heavy cargo up to 300 lbs. since its shelves and legs are made from strong, molded thermoplastic resin that won't scratch, stain, dent or rust
- 3-shelf cart offers a generous clearance of 11.75" between each shelf provides ample room for various items
- Rolling 4" casters and an ergonomic push handle molded into the top shelf

shelf design, 34"H x 20"W x 14"D

13-3099 3 shelf plastic cart; 16 lb
