- Located in the heart of Agriculture implements manufacturing HUB in North India Karnal Haryana, we understand the need of this industry and by Merging the Expertise with Engineering, we have a fully modernized production and quality control unit manned by experienced specialists.
- Our products are known for their accuracy, efficiency, and workmanship. Key to our effectiveness lies not in numbers and size. IT IS ALL ABOUT PRECISION, DELIVERING PRECISION FOR GOOD.
- Our strength is our dedicated, committed, qualified and always ready to accept challenges energetic staff and employees. For making challenges possible we have the talented work force with well-trained skill, to maintain high quality in production without disturbing the speed and quality of the job.

ROTAVATOR GEAR BOX ASSEMBLY

Model: MS001
Multispeed Gearbox
Crown Pinion 13x23
For Rotavator 4 ft. to 11 ft.

Model: MS002- Top flat
MS003- Top Curve
Multispeed Gearbox
Crown Pinion 11x22
For Rotavator 4 ft. to 9 ft

Model: MS004
Multispeed Gearbox
Crown Pinion 13x23
For Rotavator 4 ft. to 9 ft.

Model: MS005
Multispeed Gearbox
Crown Pinion 11x22
For Rotavator 4 ft. to 7 ft.

Model: MS006
Multispeed Gearbox
Crown Pinion 11x20
For Rotavator 4 ft. to 7 ft.

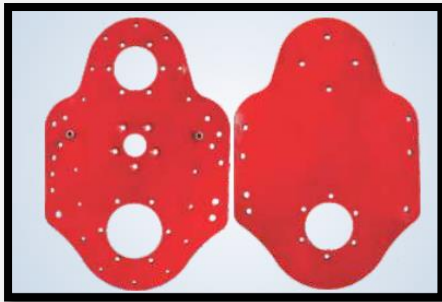

Model: SS001
Single speed Gearbox
Crown Pinion 11x22
For Rotavator 4 ft. to 8 ft.

ROTAVATOR SPARE PARTS

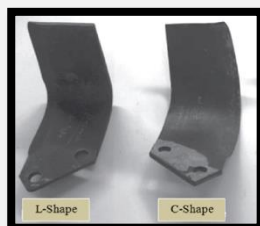

Gear box Spares, Hub, Axel, Side Gears

Side Plate

Rotor Flange

Rotavator Blades

PTO Shaft

Manufacturing Capabilities (3 M's-Man, Machine, Material)

Man

- This Company is managed by a Mechanical Engineer with 15 years' experience in Manufacturing sector of big A class manufacturing company in India.
- The Staff hired is trained and best in class for this industry with the aim of providing the best quality products.
- **Our management is “Open for customization of complete design or semi design change for your private label”**

Machine

- Imported “Horizontal machining center” for machining of Gearbox.
- CNC turning machines for flanges and Shaft.
- Vertical machining Center.
