

High Performance Packaging

Clean, safe & certified

Plastic drums, pails and jars for high value material industries

2019/01

CurTec 
HIGH PERFORMANCE
PACKAGING

Wide neck drums

Water (vapor) tight
Tamper evident
Stackable
UN certified (1H2) for solids
HDPE
3.6 | 6 | 10 | 15 | 20 | 26 | 42 | 55 | 68 litres

Total opening drums

Water (vapor) tight
Tamper evident
Stackable
UN certified (1H2) for solids
HDPE
17 | 26 | 34 | 39 | 55 | 64 | 75 | 90 | 110 litres

Nestable drums

Water (vapor) tight
Tamper evident
Stackable
UN certified (1H2) for solids
HDPE
30 | 40 | 50 | 60 | 75 | 115 | 120 | 150 litres

Square drums

Water (vapor) tight
Tamper evident
Stackable
UN certified (1H2) for solids
HDPE
40 | 50 | 66 | 80 litres

Conductive drums

Surface resistivity $\leq 1,000,000$ Ohm
Water (vapor) tight
Tamper evident
Stackable
UN certified (1H2) for solids
HDPE
26 | 75 litres

UV safe drums

UV protection within the 200 – 400 nm range
Water (vapor) tight
Tamper evident
Stackable
UN certified (1H2) for solids
HDPE
6 | 15 | 26 | 55 litres

Biobased packaging

HDPE from a renewable resource
Water (vapor) tight
Tamper evident
UN certified (1H2) for solids
26 litre Wide neck drum
1000 ml Packo

Packo

Jar with screw lid and innerseal or screw lid with integrated gasket

Water vapor tight
Open and close with just a quarter-turn
Tamper evident
Smooth inside
UN certified (1H2) for solids
HDPE
Lids available in 8 standard colors
300 | 500 | 650 | 1000 | 1300 | 1500 | 2000 | 2500 ml

Pharma Grade Packo

Jar with screw lid and innerseal

Certified according to EU and US Pharmacopeia
Water vapor tight
Open and close with just a quarter-turn
Tamper evident
Smooth inside
UN certified (1H2) for solids
HDPE
300 | 500 | 650 | 1000 | 1300 ml

UV safe Packo

Jar with screw lid and innerseal or screw lid with integrated gasket

UV protection within the 200 – 400 nm range
Water vapor tight
Open and close with just a quarter-turn
Tamper evident
Smooth inside
UN certified (1H2) for solids
HDPE
300 | 500 | 650 | 1000 | 1300 ml

Click Pack

Pail with screw lid

Water vapor tight
Open and close with just a quarter-turn
Tamper evident
Smooth inside
UN certified (1H2) for solids
HDPE
6 | 10 | 15 | 20 | 25 litres

Duo Pack

Pail with insert and press-on lid for two-component materials

Smooth inside
UN-Y certified (1H2) for solids
PE
1.2 | 5 | 10 litres

CurTec drums, pails and jars with their signature screw lid closure are designed to meet the highest industry demands with regard to safety, security and certification.

Our highly recognizable containers are made from high density polyethylene (HDPE) and manufactured to GMP standards of quality and cleanliness. They are moisture (vapor) tight, tamper evident and UN certified for hazardous solids.

Benefits & features

Prevent contamination: CurTec's Hygiene Management System provides visually-clean packaging

Avoid softening or caking of solids or powders: mounted or integrated gaskets prevent moisture ingress

Secure valuable content: Sealing features reveal and prevent tampering

Hazardous solids arrive safely at their destination: UN certificates are available for all containers

Comply with food safety legislation: FDA and FSSC certified for food contact

Lower cost of storing and shipping empty packaging: our nestable solutions take up less storage space

Set your product apart from the competition: CurTec packaging has a highly recognizable design

Take your brand identity to a new level: customize our packaging with colors, labels, sleeves and printing

Lower your carbon footprint: our 100% plastic packaging can be re-used or easily recycled

CurTec is a GMP certified packaging company
