sonnenBatterie Smart Energy Storage for Homeowners

sonnen's mission is to provide clean and affordable energy for all. Our all-in-one sonnenBatterie energy storage products integrate with new and existing solar power systems to turn your house into a smart energy home — using more of the solar energy you generate during the day to provide power at night and to keep your lights on when the grid goes down.

The sonnen Difference

Since 2010, sonnen has been an innovator in intelligent energy storage products that help customers reach their goal to use clean, reliable and cost-effective energy. What makes sonnen unique is our proven ability to provide best in class, clean energy products and services that are easy to use.

sonnenBatterie: a Key to Smart Energy Homes

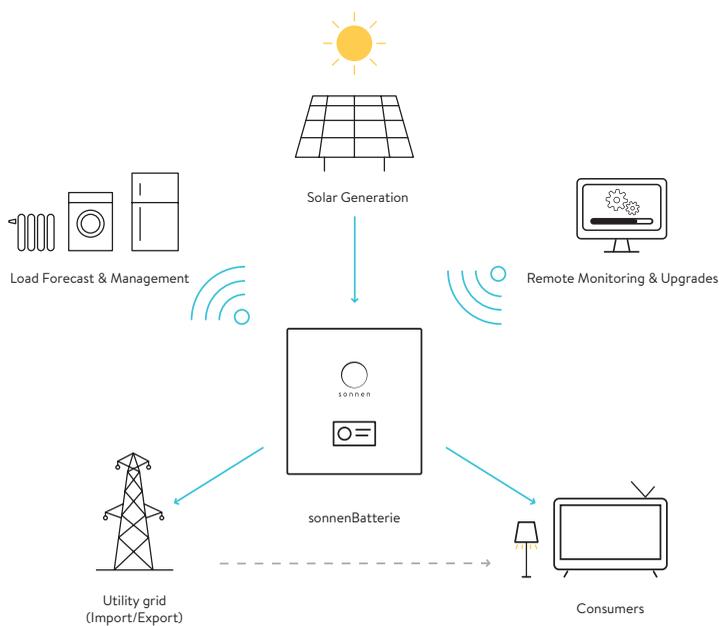

The sonnenBatterie actively maximizes your household solar consumption by storing excess solar for use later. Adding a sonnenBatterie to your solar power system enables you to:

- Maximize the use of your clean solar energy by **storing excess solar for use at night**
- **Keep the lights on** and your solar working during power outages*
- **Lower your electric bill** by reducing your use of the grid during expensive peak times
- **Monitor and manage** your household energy usage with our sonnen App
- **Increase your independence** from the utility grid

Greater Energy Control

The sonnenBatterie eco software allows you to monitor, analyze, and control the supply and demand of your household – anytime, anywhere.

Intelligent Energy Management

- Web portal and App provide real-time production and consumption data to help you monitor your energy usage
- Integrated energy management software uses historical usage and current energy needs to manage your energy supply
- Remote monitoring and software upgrades minimize system maintenance and provide future proofing against energy uncertainty

Safety and Performance

- All-in-one design works with new and existing solar
- 4kWh to 16kWh storage capacity available
- Safe and reliable battery chemistry certified to UL standards
- Warranty for reliability, durability and long 10-year lifespan

For everyone everywhere.

sonnenBatterie is sold exclusively through our network of trusted partners across the U.S. and around the world. We have certified sonnenBatterie partners in your area who will help determine which eco storage systems fits your household energy needs and then work with you to install, commission and service your system. Simply contact us for more information.
