

FALL 2022

# HOME FOR THE HOLIDAYS

Alisha is a single mom of two teenagers. Like many others, she lost her job during the early stages of the COVID-19 pandemic. In order to prevent being evicted, they decided to leave their apartment and became homeless.

Not having savings and having a less than stellar credit, Alisha was unable to find a new rental and they were forced to stay in costly hotels and Airbnb's.

*"My kids and I have been homeless for a while and never have had to use any housing assistance. As a single mother I have always tried my best to succeed and do the right thing."*

Even after finding stable employment, the cost of hotel life made it impossible for them to save enough to get into an apartment. Alisha applied for the EveryONE Matters Ministries program and moved in right before the upcoming holiday season.

Due to the **generosity** of donors and community partners, EMM was able to purchase a newer RV for Alisha's family to move into and fully stock it with all the basic essentials that they needed to adjust to RV life.

Alisha believes that EMM will be an amazing program for herself and her family to strive towards success for their future.

**Your** generosity allows families like Alisha to have **hope** and **restoration**. They will learn financial education skills, allowing them to take control of their money and credit.

Mentors work with each family to set individual goals in the areas of savings, employment, relationships, mental & spiritual health and wellness and provide support and accountability to work towards achieving each goal.

\*Names and photos were changed to protect client privacy

We wanted to take this season of thankfulness as an opportunity to spotlight a partner who is driven to support those in our community who experience inequity in many areas of care.

Dignity Health's Foundation focuses on specific areas of health and wellness such as: mental/behavioral health and substance-use services, lack of housing/jobs and food, quality primary care health services, system navigation of healthcare & injury and disease prevention and management.

Through their community grants projects, they fund collaborations between community based-organizations with the goal of providing a lasting positive impact on disadvantaged individuals and families.

In 2022, EMM was awarded funds for a collaborative project providing credit counseling, employment services for women, and new housing units (RVs). Their partnership has allowed EMM to continue to provide the best services possible that will allow our clients to have hope of a thriving future.

Thank you Dignity Health Foundation for your collaboration and support to help the underserved in our community!

## PARTNER SPOTLIGHT

\*Pictured are two Dignity Health Foundation staff in front of one of the newer trailers EMM was able to purchase with grant funds.

## HOW YOU CAN HELP

The season on giving is upon us! As we plan for what's to come for 2023, we consider how we have stewarded what our donors and partners provided in 2022.

In 2022, we have already had 3 households graduate, 4 households begin the program, and we anticipate a total of 6 graduate households and 7 move-ins by the end of this year. Our goal for 2023 is to double those numbers.

We **need your help** to accomplish this goal.

### **Become A Monthly Donor:**

Monthly donations allow us keep up with monthly expenses such as staffing, maintenance, and program costs.

### **End of Year Giving:**

Our larger EOY gifts, allow us to plan for fleet upgrades & staffing decisions for the upcoming year.

### **Fill a direct client need:** Amazon Wish List

We welcome each client to their temporary home with all the basic essentials of RV life.

### **Prayer:**

Our team and clients always need prayer! Pray for our clients to experience heart and mindset change & for our staff to have wisdom and discernment in everything we do.

### **Visit & Spread the Word:** Bru Coffeehouse

Bru exists to provide additional funding to EMM. Join us in Loomis for visits with friends, Bible studies, or remote working/studying!

Thank you for your continued support, generosity and prayer.

Blessings to all,
