

A SEASON OF THANKSGIVING

November 1, 2021

One week ago, EveryONE Matters Ministries (EMM), moved in the Ferguson family—a family of four, to a local mobile home park in Sacramento.

Before coming to EMM, the family had lost their housing and began jumping around from couch to couch. Next they ended up in a motel, paying \$700 per week just to ensure a safe place for their children to sleep.

Because of generous donors like you!

They learned about EMM through their son's school administration, and put in an application.

On moving day 10-year-old Hudson insisted that mom and dad pick him up instead of going to after school care—excited to see their new home! After 5 months of instability, they finally have a place to call home. Although the Ferguson's will live in a 110 square foot space for the next year, they expressed how thankful they were for the opportunity to be in the EMM program.

The Ferguson family is on their way towards a stable and **hope-filled** future because of generous donors like YOU! We have many families waiting to enter our program and have a home of their own. Will you help us make this possible?

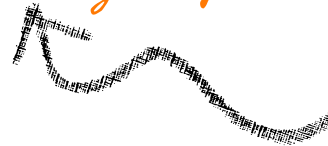

It costs an average of \$600 per month to house each family – and we are in desperate need of more RV's to meet the need of each family who comes to us – each RV costing about \$15,000. During this season of giving would you consider a gift that will reach, house, and give hope to more families? Thank you – because we couldn't do it without YOU.

Partnering together,

A handwritten signature in black ink that reads "Cassie".
