

Project Engineer

Based in Rotherham, AMG Chrome Limited, is a business unit of AMG Advanced Metallurgical Group N.V., a global critical materials company at the forefront of CO2 reduction trends.

AMG Chrome Limited is a customer-focused, technology-driven, and global organization dedicated to innovation, quality, technical expertise, and rapid response to customer needs. For more than 80 years, AMG Chrome Limited has earned a trusted reputation for reliable delivery of specialty metals, alloys, and materials around the world.

The Role:

In this varied, hands-on role reporting into the Head of Engineering, you will be joining the engineering department to work closely with our production teams to deliver projects on time and within budget. There are also opportunities to support the wider engineering/maintenance department with technical support and assist in process/continuous improvements to enhance overall service performance and costs.

Main responsibilities will include:

- The principal responsibility of the position is the coordination of specified projects from point of order to on-site installation and commissioning, ensuring compliance with, technical, Environmental, Health & Safety legislation to the agreed timetable and costs.
- Personal involvement in design and in specification and ordering of bought-in equipment, liaising with other technical staff as appropriate.
- Monitor and report the status of projects to the management team.
- Formal hand over of completed projects inclusive of support and training
- To meaningfully contribute to and support continuous improvements of manufacturing processes, equipment, work methods and activities.
- Involvement with Root Cause Analysis.
- To support with problem solving concerning maintenance issues and on line processes.
- Give technical support to the maintenance team, as and when required.

The Person:

This is an exciting opportunity to join our engineering team in a business that is continuously investing in our people, processes and plant. The successful candidate will have proven competence and experience working as a Project Engineer with 3-5 years experience within a medium to heavy manufacturing environment and should hold a minimum of a HNC or equivalent in a relevant engineering discipline and have a good understanding of health & safety, CDM, Risk Assessments and method statements.

What we offer:

We value our people and offer a safety first environment with a competitive salary and generous benefits package including company pension scheme, onsite gym facilities, private healthcare, life insurance, holiday buy scheme, recruitment referral bonus, flexible working, free onsite parking and a significant career development and progression opportunities.

Based in the busy industrial district in Rotherham, close to Meadowhall Shopping Centre, we are easily accessible via M1 and have free on site parking.

AMG is an Equal Opportunities and Disability Confident Employer. We welcome applications from all suitably qualified candidates, regardless of their race, gender, disability, religion/belief, sexual orientation or age. Should you need any assistance or reasonable adjustments due to a disability, please do not hesitate to contact Laura Barber on 01709 828500.

Please note - all appointments are subject to successful employment screening (right to work checks, pre-employment medical and alcohol/substance misuse testing).

If a current employee of AMG referred you to this role, please state their full name
