

Children's Hospital
Colorado

Hello Sapphire Families,

When we refer you to Children's Hospital; you will have a separate portal to view your child's medical records than Sapphire's portal. This is because we are on two different systems. See below for Children's Hospital portal directions, if you create a portal with them, you will be able to view your results the quickest and obtain any copies needed.

There are a couple options:

1. Call the CHCO MyChart Help Desk **720-777-6939**
 - a. From there, you all can get a text code send to their phone that includes an access code
 - b. They will need to pick an user name, password and put in their zip code and parents DOB
2. Parent can request a code from our MyChart site
 - a. This takes 48-72 hour business hours to get information back
 - i. This would not be a recommended solution for someone who needs it right away
 - b. See info below on where they can go for this
 - c. <https://mychart.childrenscolorado.org/MyChart/Authentication/Login?>

Need An Access Code?

REQUEST ACCESS CODE
