

# About Us

COMINCACAO is a family-owned enterprise specializing in the sourcing, production, and distribution of premium Peruvian superfoods, harvested directly from indigenous communities. Our unwavering commitment to sustainability safeguards the environment and empowers our producers. Tapping into the rich biodiversity of the “Gran Pajatén,” we offer a comprehensive range of products in both bulk and retail formats, delivering the unparalleled benefits of nature to your doorstep. We are continuously innovating our processes, packaging, and services to deliver exceptional value and ensure the highest quality superfoods. Our vision is to inspire a global community to embrace a healthier, more mindful lifestyle by elevating our products through uncompromising naturalness, functionality, and excellence.

# OUR HISTORY

A decade ago, COMINCACAO embarked on a mission to elevate the global profile of Peruvian cocoa and its derivatives. Since then, we have refined our processes and adhered to the most stringent quality standards. As our expertise grew, we expanded our focus to encompass the vast array of Peruvian superfoods, leveraging the unparalleled biodiversity of the Andes and Amazon. Throughout our journey, we have unveiled the nutritional treasures hidden within Peruvian biodiversity and forged deep partnerships with indigenous communities, learning from their time-honored traditions and ancestral wisdom. Driven by innovation, we have specialized in delivering premium, functional food products in both bulk and consumer-ready formats. Our unwavering commitment to R&D has resulted in industry-leading formulations and techniques. Guided by our ethical principles and sustainability commitments, we collaborate closely with indigenous communities to enhance livelihoods and promote sustainable development throughout the value chain.

# COCOA BEANS

**Theobroma cacao Origin:**  
**San Martín, Peru**

## **Description:**

Since the era of ancient Mesoamerican civilizations, the cocoa bean has been esteemed as a divine offering. This small fruit is indeed remarkable, as it harbors a wealth of beneficial properties for health and well-being. It serves as a source of minerals, vitamins, calories, and antioxidants. Additionally, it aids in stimulating brain function and promoting the release of endorphins.

## **Advantages and Applications:**

- **Antioxidants:** More potent than those found in green tea or red wine, they combat free radicals and assist in the prevention of chronic diseases.
- **Flavanols:** Enhance blood circulation, safeguard cardiovascular health, and support cognitive function.
- **Phenylethylamine:** Promotes the synthesis of endorphins, the hormones associated with happiness, thereby fostering a sense of well-being.
- **Magnesium:** Vital for the operation of over 300 enzymes in the body, it facilitates muscle relaxation and enhances sleep quality.
- It is suitable for chocolate production, gourmet cuisine, natural cosmetics, and traditional rituals.

# COCOA NIBS

Theobroma cacao Origin:  
San Martín, Peru

## Description:

Our cocoa nibs represent the purest and most natural method of cocoa consumption. They serve as an excellent source of minerals, vitamins, calories, and antioxidants. Additionally, they promote the stimulation of brain function and the release of endorphins.

## Advantages and Applications:

- Rich in flavonoids, which combat free radicals and safeguard your cells against oxidative damage.
- Theobromine, a naturally occurring stimulant, provides a sustained and gentle energy enhancement.
- Rich in magnesium; lowers the risk of osteoporosis.
- Lowers LDL cholesterol and diminishes the risk of blood clots, promoting cardiovascular health.
- Source of fiber: Enhances digestion and promotes prolonged satiety.
- Optimal for application in baking and confectionery.
- As a fundamental component for cosmetic formulations.

# COCOA BUTTER

Theobroma cacao Origin:  
San Martín, Peru

## Description:

Our cocoa butter is a natural treasure. Extracted from the finest cocoa seeds, it is abundant in antioxidants, vitamins, and essential fatty acids that profoundly nourish the skin and hair. It enhances cognitive function and promotes the release of endorphins.

## Advantages and Applications:

- Restores the protective barrier of your skin, resulting in a soft and supple texture while delivering profound hydration.
- Rich in theobromine, which possesses antidepressant properties.
- Rich in magnesium, it lowers the risk of osteoporosis.
- It serves as a natural antioxidant that combats free radicals and mitigates premature aging due to its flavonoid content.
- Lowers LDL cholesterol levels and diminishes the risk of blood clots.
- Optimal for application in baking and confectionery.
- As a fundamental component for beauty and aromatherapy products.

# QUINOA

**Chenopodium quinoa Altiplano from Puno, Ayacucho, and Apurímac, Peru**

## **Description:**

Quinoa is an ancient Andean grain regarded as a complete food because of its exceptional nutritional value. Abundant in proteins, healthy fats, fiber, vitamins, and minerals, quinoa is ideal for a balanced diet.

## **Advantages and Applications:**

- It comprises proteins, healthy fats, fiber, vitamins, and minerals that are essential for the body.
- It aids in lowering cholesterol levels and enhancing blood circulation.
- Delivers sustained energy and supports optimal brain function.
- Enhances the immune system due to its antioxidant properties.
- Fiber promotes digestive health and alleviates constipation.
- Substitute rice or couscous in your recipes.
- Ideal for salads, soups, and desserts.

# CHIA

## Salvia Hispanica Origin: Cusco, Peru

### Description:

Discover the nutritional potency of this remarkable seed, small yet brimming with health benefits. With a high concentration of omega-3 fatty acids, calcium, iron, protein, and antioxidants, this seed is a genuine nutritional gem that supports the optimal functioning of the digestive and muscular systems.

### Advantages and Applications:

- It lowers levels of "bad" cholesterol (LDL) and triglycerides while enhancing blood circulation, thereby safeguarding your heart.
- It fortifies bones and teeth due to its elevated levels of calcium, magnesium, and phosphorus.
- Aids in the prevention of osteoporosis.
- Proteins play a crucial role in the formation and repair of tissues while also supplying sustained energy.
- Fiber facilitates optimal digestion, alleviating constipation and enhancing intestinal health.
- Antioxidants safeguard cells from damage and enhance the absorption of nutrients.
- Omega-3 fatty acids are vital for optimal brain function and may enhance memory and concentration.
- An excellent alternative to rice and couscous, serving as a perfect accompaniment to salads and soups.
- Incorporate into your smoothies, yogurts, cereals, and desserts.

# SACHA INCHI

**Plukenetia volubilis L., St. Martin, Peru**

## **Description:**

Sacha Inchi serves as a potent source of protein and essential fatty acids, including Omega 3, 6, and 9, which support cardiovascular health and lower elevated cholesterol and triglyceride levels. Furthermore, it is particularly beneficial for individuals seeking to enhance muscle mass naturally.

## **Advantages and Applications:**

- Abundant source of Omega-3 and Omega-6 fatty acids, vital for cardiovascular health.
- Aids in the regulation of cholesterol and blood glucose levels.
- Promotes cardiovascular health and mitigates the risk of conditions such as myocardial infarctions and thrombosis.
- It possesses anti-inflammatory properties, enhances overall well-being, and facilitates muscle recovery.
- Ideal as an accompaniment to smoothies, salads, or as a nutritious snack.
- This superfood is essential for individuals seeking to enhance their cardiovascular health and physical performance naturally.

## **Presentation:**

# CAROB POWDER

Ceratonia siliqua, Piura, Lambayeque, and La Libertad, Peru

## Description:

Carob powder is a time-honored fruit that has emerged as a superfood due to its remarkable nutritional profile. It is gluten-free and serves as a concentrated natural source of antioxidants, vitamins, minerals, and fiber, contributing to the enhancement of the immune and cardiovascular systems.

## Advantages and Applications:

- Regulates blood pressure and cholesterol levels, thereby promoting cardiovascular health.
- Facilitates optimal digestion.
- Aids in the prevention of osteoporosis and fortifies bones.
- Alleviates inflammation, providing relief from pain and discomfort.
- It combats bacteria, viruses, and fungi due to its content of gallic acid and tannins.
- It serves as a prebiotic, enhancing digestive health.
- Ideal for crafting gluten-free breads, cookies, cakes, and various other baked confections.
- Incorporate it into shakes, smoothies, and plant-based milks to enhance their nutritional value.
- Integrate carob powder into your daily regimen to reap its numerous advantages.

## Presentation:

# TURMERIC POWDER

## Turmeric longa Huanuco, Peru

### Description:

Turmeric POWDER, often referred to as the "gold of India," is a time-honored spice abundant in curcumin, a potent antioxidant and natural anti-inflammatory, as well as a significant source of minerals and fiber. It plays a vital role in enhancing the immune, cardiovascular, and digestive systems.

### Advantages and Applications:

- Alleviates pain and inflammation linked to various conditions, including arthritis.
- Safeguards your cells against damage from free radicals, aiding in the prevention of chronic diseases, bolstering your natural defenses, and assisting in the fight against infections.
- It aids in the removal of toxins from the body and safeguards the liver.
- It enhances digestion, alleviates intestinal inflammation, and mitigates issues such as irritable bowel syndrome.
- Aids in lowering cholesterol levels, blood pressure, and the risk of cardiovascular disease.
- Safeguards neurons and has the potential to enhance cognitive function.
- Enhances the skin's appearance, diminishes inflammation, and fosters a more radiant complexion.
- As a dietary supplement in beverages and smoothies.
- Ideal for medicinal and cosmetic applications, as well as for baking and culinary purposes.

### Presentation:

# MACA POWDER

## Lepidium Meyenii Walp Junín, Perú

### Description:

Originating from the Peruvian Andes, maca is a superfood recognized for its energizing and adaptogenic qualities that assist the body in adapting to stress and sustaining hormonal equilibrium. Abundant in essential nutrients, maca enhances both physical and mental performance. It is available in both raw powder and gelatinized powder forms.

### Advantages and Applications:

- Combats fatigue and enhances physical endurance.
- Regulates hormones, enhancing mood and overall well-being.
- Enhances libido and fertility! Improves sperm quality and ovarian performance.
- Enhances the immune system.
- Incorporate it into your smoothies, yogurt, or cereals; it can also be utilized in the preparation of desserts, cookies, and breads.
- A rich source of iron and calcium, surpassing all other plants of its kind.
- Rich in vitamin B complex, vitamin C, and vitamin E.

### Presentation:

Boxes weighing 15 kg

# YACON POWDER

## Smallanthus sonchifolius Junín & Huánuco, Peru

### Description:

Yacon, an Andean tuber, serves as a rich source of fructooligosaccharides (FOS), a prebiotic fiber that supports the growth of beneficial intestinal bacteria. It is also an excellent source of protein, vitamins, and minerals, and plays a role in regulating the immune system; available in powder form.

### Advantages and Applications:

- Enhances intestinal flora, preventing constipation and fostering healthy digestion.
- Decreases appetite and aids in weight management by fostering sensations of fullness.
- Enhances insulin production in the pancreas, thereby regulating blood sugar levels, making it ideal for individuals with diabetes or prediabetes.
- Aids in lowering cholesterol and triglyceride levels.
- It serves as a substitute for sugar in beverages and desserts, and can be utilized in the preparation of bread, cookies, and various baked items.

### Presentation:

# PURPLE MAIZE POWDER

## Zea mays, Ayacucho and Junín, Peru

### Description:

Purple corn, a cherished heritage of the Andes, serves as a rich source of anthocyanins—responsible for its distinctive deep purple hue—flavonoids, and various other bioactive compounds. This remarkable corn acts as a potent antioxidant, safeguarding the body against free radicals, particularly through its anthocyanin content.

### Advantages and Applications:

- Aids in lowering cholesterol levels, blood pressure, and the risk of cardiovascular disease.
- It stimulates collagen synthesis and possesses anti-cancer properties.
- It fosters a sense of fullness, aids in appetite regulation, enhances digestion, and promotes the proliferation of beneficial intestinal bacteria.
- Safeguards your cells against oxidative damage, postponing the aging process, while also aiding in the combat against diseases and infections.
- Incorporate it into your juices, shakes, and smoothies, or use it to create desserts, cookies, and dressings.
