

Morrilton Fire Department and Conway County Fire Department Automatic Aid Agreement

Automatic Aid:

A program designed to provide and/or receive assistance from the closest available resource, irrespective of municipal boundaries.

Intent:

- Persons experiencing the emergency will receive a seamless service through the elimination of artificial service boundaries.
- The implementation of an automatic aid program can enhance the level of public safety.
- The concept of automatically dispatching the closest available assistance could reduce the critical element of time between the commencement of a fire or rescue and the application of an extinguishing agent to the fire and/or initiation of emergency operations.
- Life, property, and environmental losses may be substantially reduced.
- Public and firefighter safety will be improved.
- The persons living or working in the defined areas will all stand to receive an improved level of service.

Agreement:

For the purpose of this agreement, and automatic aid agreement means any agreement under which,

1. A municipality agrees to ensure the provision of an initial response to fire and rescues that may occur outside the municipality where a fire department in the municipality is capable of responding more quickly than a fire department outside the municipality; or
2. a municipality agrees to ensure the provision of a supplemental response to fires and rescues that may occur outside the municipality where a fire department situated in the municipality is capable of providing the quickest supplemental response to fires or rescues occurring in areas outside the municipality; or
3. a fire department situated outside a municipality agrees to provide initial response to fire that may occur inside a municipality where a fire department situated outside the municipality may be capable of responding more quickly than a department situated within the municipality; or
4. A fire department situated outside a municipality agrees to provide supplemental response to fires that may occur inside the municipality where a fire department situated in the municipality may require specialized equipment not available in the municipality.

Response Operations:

For purpose of the agreement, response operations agreement means any agreement under which:

- A municipality or other department agrees to ensure the use of universal standard operation procedure in regard to fire and rescue training and tactics.
- A municipality or other department agrees to ensure the use of the unified command system during fire and rescue incidents.
- A municipality or other department agrees to ensure the use of a common fire ground communication frequency.
