PRICE LIST

Creative Oak produces the industry's finest oak barrel alternatives in convenient styles for both tanks and barrels. We've created five precision fire toasts – our Source Collection – that serve as the backbone for our eight Element convection toasts with their distinctive flavor profiles. Combined with our Forest and Ethos collections, these toast profiles give winemakers an endless variety of blending options.

PRODUCTS

Creative Oak produces the industry's finest oak barrel alternatives in convenient styles for both tanks and barrels.

TANK STAVES

We offer two styles of tank staves. The single staves are versatile and can be built into "log cabins" on the tank floor or used freestyle for tank fermentations. The fan pack consists of 20 single tank staves tied at one end and attachable to the side of a tank for tank ferments and aging.

TANK BAGS

We offer three styles of staves bagged in the convenience of an infusion mesh bag. The smaller squares speed up flavor uptake and tannin integration, yet avoid "pencilly" and "brown paper bag" characters often associated with excessive exposure to end-grain. The halved staves combine the superior flavors of

tank staves with the convenience of infusion bags. Our bagged shorter length bricks allow faster absorption into wine while maintaining good tannin integration.

BARREL INSERTS

We offer two styles of barrels insert. The bung insert, which includes a stainless screw to attach to the underside of the bung, lets winemakers add new oak aromas and textures within the micro-oxidative environment of a neutral barrel. The head insert staves are spaced to allow stirring of the lees. Please note this stave system is installed onsite at your winery by a visiting cooper to ensure a sanitary, leak-free installation. Ask your sales consultant for more details about this process.

NEW ONLINE ORDERING

We are pleased to announce the launch of our new online Creative Oak store where you can purchase some of our bestsellers.

Visit www.creativeoakstore.com to place your order today.

PRODUCT CALCULATOR

Determining the amount of Creative Oak you need to order has never been easier. Our easy-to-use calculator will quickly determine the amount of product you will need.

TECHNICAL SERVICES

As a Creative Oak customer, you will be fully supported by our veteran team of oak specialists and our in-house technical laboratory. We use cutting-edge science and technology to push the limits of conventional wisdom on the chemistry of oak, heat and wine. Some of our complimentary services include measurement and analysis of oak aromatics, sensory evaluation of wine structure and oak aromatics, and scientific evaluation of consistency in oak toasting.
