At Tonnellerie Ô, all the wood used to build our French oak barrels comes from nationally or locally owned public forest parcels that have been carefully cultivated for centuries to produce oak of the highest quality. Our 225L barrels are made from a blend of wood from four regions within Northern France (Hauts-de-France, Ile-de-France, Normandy and Grand Est), which includes the forests of Halatte, Chantilly, Fontainebleau, Darney and Bellême, among others. Our Burgundy Export Barrels are produced from a blend of wood from four regions in the Center of France (Auvergne-Rhône-Alpes, Bourgogne-Franche-Comté, Val de Loire and Centre-Val de Loire), which includes the forests of Orléans, Saint-Palais, Tronçais, Bercé and Bertranges, among others. All staves are seasoned for at least 36 months at the mill where they are made before shipment to our cooperage in Benicia, California.

## FUTAIE

Tonnellerie Ô produces two different barrel formats from premium oak staves chosen exclusively from trees grown and harvested in accordance with the Futaie system of forest management. Under the strict direction of the French National Office of Forestry (ONF), Futaie forests have become the source of some of the highest-quality oak found anywhere in the world, prized for its fine grain and rare uniformity. Designed to help sharpen focus on vivid fruit and floral characters, our proprietary toasting process helps create lifted, delicate aromas; energy and nerve on the palate; and a bright, focused finish.

Selections	Seasoning	Format	1-19	20+	75+
Pur Blanc	36 months	225L/22mm & 228L/27mm	\$1,780.00	\$1,702.67	\$1,626.67

## SOUS L'EAU

An overnight “cold soak” of staves in pure, filtered water washes away tannin and woody aromatic compounds, leaving a uniquely clean, elegant sensory profile. This process creates a balance of clear varietal expression and refined oak influence.

Selections	Seasoning	Format	1-19	20+	75+
Elegance	36 months	225L / 228L / 27mm / 22mm	\$1,780.00	\$1,702.67	\$1,626.67

## CRÈME DLC

To build this limited-production barrel, our coopers select only the finest grain staves milled from the most renowned forests of central France. Long, controlled toasting brings greater definition to the aromatic and textural elements of the finest oak: complex aromas, richer mouthfeel, extended finish.

## ÉLEVAGE

## MASTER COOPER SELECTION

Master Cooper Quinn Roberts and Tonnellerie Ô are excited to offer you a rare forest-to-barrel experience that begins in the ancient oak forests of France and ends in our Benicia, California, cooperage. By joining the Master Cooper program, you will have the unique opportunity for an in-depth forest education from artisans who have been crafting premium-quality staves for generations. Quinn will also host a tour of the family-owned stave mills for a front-row view of the entire process, from cutting to sorting to seasoning. You will be able to set aside wood in the stave yard that will be used to make your barrels anywhere from three to five years in the future, depending on the preferred seasoning time. After the oak staves have been delivered to the cooperage in Benicia, you will follow the barrel-making process from beginning to end and determine your own custom formats and barrel toasting.
