

There was no voter fraud in the 2020 election. This has been certified by multiple officials, Republican and Democrat, in every state. This myth is Republican FAKE NEWS and is believed by their ignorant followers.

Based on this, most Republican led state legislatures have brazenly gerrymandered their voting districts, disenfranchising millions of voters. They have also passed multiple laws cheating other millions of American citizens from even voting at all.

These legislators are supported by poor, desperate, ignorant MAGA Republicans who will do anything to remedy their wretched lives. The Democrats would actually help these people out better than fat cat Republicans.

The Republicans are engaged in a bold-faced effort to destroy our democracy. They are bad, shameless, and dangerous people. Their efforts to deny millions of Americans the right to vote is the real VOTER FRAUD.
