

MODEL 2550

Hydrostatic Stump Grinder

The Model 2550 is a mid-sized stump grinder designed with the flexibility to move between backyard jobsites and larger clearing projects. Available with **gas or diesel** engine options rated at 49 horsepower and the choice of a **rubber tire or track** undercarriage, this unit is extremely popular due to its ability to grind a wide variety of stumps while still being easily maneuvered with a weight of approximately 2,280 pounds. As with all Bandit products, you can choose from an array of options on the 2550 including different **control configurations**, and enjoy its capability to conquer challenging terrain and stumps.

MACHINE MOUNTED CONTROL VALVES

CLASS-LEADING PERFORMANCE

The Model 2550 features a 53- $\frac{1}{2}$ " cutter swing, while also grinding to a depth of 15" or a height of 23- $\frac{1}{2}$ ". Four-wheel drive is standard on the 2550 for travel, while an optional grading blade is also made available to aid with jobsite cleanup.

CUTTER WHEEL OPTIONS

Two different cutter wheel options are available. The Bandit wheel, with 18 Green teeth, provides an efficient cut while the concave teeth can be rotated up to three times before needing discarded. The New Revolution wheel, with 24 carbide hex teeth, also boasts an efficient cut and is popular for its ability to contain debris under the machine, reducing clean up.

BELTLESS HYDROSTATIC DRIVE

A heavy-duty Parker hydraulic drive motor is mounted on one side of the cutter wheel providing a simple, yet economical way to drive the cutter wheel. No drive belts, bearings, jack shafts or clutches are needed reducing maintenance costs and increasing productivity.

CHOOSE YOUR OWN CONTROLS

How do you prefer to grind? With the 2550, operators can ensure they will be most productive yet comfortable with having to select their desired controls -- valves mounted on the side of the machine or radio remote with tether back-up.

RADIO REMOTE CONTROL (WITH TETHER BACKUP)

* Available with two user-friendly control configurations
