

## APRIL 2019 NEWSLETTER

The Colorado Springs Orchid Society will have its April 2019 meeting on Saturday the 27th at Fire Station #14, 1875 Dublin Blvd. The fire station is at the intersection of Academy and Dublin behind Yorkshire Veterinary Clinic. From Academy Blvd, turn east onto Dublin, then take the first right. The meeting starts at 10:00 AM with social time and set-up between 9:30 AM and 10:00 AM. See our website for directions and a map.

The club provides plants each month for the raffle and members are encouraged to donate divisions of their plants for the raffle table. Raffle tickets are \$1 each. Bring your blooming orchids for Show & Tell and receive a free raffle ticket.

Members can purchase raffle plants outright before the raffle begins for the price listed on the plant – If you have a question about a raffle plant or the price, speak with Robin. We encourage members to bring their divisions to sell or for the raffle table.

This month refreshments will be provided by those whose last name begin with the letters M to R.

## President's Message

I really look forward to our monthly meetings. It works out that our orchid society meetings are my main avenue of social interaction. Maybe I should consider getting a life.

No. I enjoy being with others that enjoy nature in the form of orchids but also in other ways as well. Orchids are our choice of focus but not to the exclusion of other things. Our members have interests in gardening and birdwatching and other ways of appreciating and participating in the world of nature.

My house is located in Black Forest where we have lots of trees. That's a real wonderment as I grew up on the eastern plains where trees are very scarce and treasured. Now I sometimes find myself thinning trees to allow the remainder room to grow. And with the trees I get woodpeckers that control the beetles and such that prey on the trees. I have bird feeders and nest boxes for all sorts of birds that I enjoy watching

I don't mow my yard as much as some of my neighbors as I can see advantage to natural plants and flowers to feed the bugs that feed the baby birds. With all my orchids I don't find as much time for gardening as I used to but my wife covets this and that which leads to my duties to help plant and care for them.

We used to have these black tufted-eared squirrels but civilization with its dogs and cats and invading, more-aggressive red squirrels are displacing them. Plus, they seem too stupid to get across the road before getting run over. Kind of a form of evolution, I guess.

As I'm writing this it has come to my attention this is the season of Earth Day. So, let's keep in mind all those non-orchid life forms that might also need our help.

Good Luck and Good Growing,
