## OCTOBER 2019 NEWSLETTER

The Colorado Springs Orchid Society will have its October 2019 meeting on Saturday the 26th at Fire Station #14, 1875 Dublin Blvd. The fire station is at the intersection of Academy and Dublin behind Yorkshire Veterinary Clinic. From Academy Blvd, turn east onto Dublin, then take the first right. The meeting starts at 10:00 AM with social time and set-up between 9:30 AM and 10:00 AM. See our website for directions and a map.

**REMINDER:** We will have another auction this month since several of the orchids the club ordered did not arrive in time for our auction last month. Also, you are welcome to bring any orchids, supplies, books, and anything else 'orchid' that you would like to donate to our auction. Dependent on the donations we receive, we will decide at the meeting if there will be a raffle this month or if all the items will be auctioned. Since Stan Brown, Terry Bernard's friend, is behind in his repotting, he will provide some Cattleya back bulbs next month for our November meeting!

If we decide to have a raffle in addition to the auction, raffle tickets may be purchased for \$1 each. Bring your blooming orchids for Show & Tell and receive a free raffle ticket.

Members can purchase raffle plants outright before the raffle begins for the price listed on the plant – If you have a question about a raffle plant or the price, speak with Robin. We encourage members to bring their divisions to sell or for the raffle table.

This month refreshments will be provided by those whose last name begin with the letters A to F.

Roger's City. Ethels Paradise

## President's Message

We all surely did enjoy our September orchid meeting. Terry Bernard and her friend Stan Brown offered some great back bulbs on silent auction that drew very enthusiastic interest. We can expect to get a repeat offering in November. Many thanks to Terry and Stan!

This month we are expecting some wonderful orchid plants for our annual Auction. The funds we take in from these activities are useful for donations to orchid organizations that work to improve and conserve orchid habitats.

We, as orchid purchasers, can stay aware and purchase orchids that are not from wild populations but from reputable nurseries and propagate from divisions or seed grown plants. Historically, wild orchid populations have been decimated or even eliminated through collectors acting through greed and insensitivity. Still today orchids are collected for sale, legally and illegally.

So, I feel it is our custodial responsibility to support our orchid industry by buying and caring for the fragility of orchids and their habitats. The current plan seems to be to produce some cheap orchids in the cheapest way and neglect the thought or responsibility of expecting them to be properly cared for or re-bloomed. It's a throw-away world. Personally, I am a hoarder - I can't see throwing out anything that still may have some redeeming quality. And I'm cheap!

Good Luck and Good Growing,  
Roger Stone
