

chain link

- 1) Have the players form a line with locked arms
- 2) Instruct them that they cannot let go of the person next to them no matter what ! They must try to maintain the chain
- 3) Set up a line of pylons across the field.
- 4) Scatter some balls between the players and the line of pylons
- 5) The object of the game is for the players to move together in a locked line until they have kicked all of the balls over the pylon line without breaking the chain.
