I am born and raised in Denmark, and relocated to Ellicott City, Maryland in 2011, where I became a proud U.S. citizen in 2019.

I am a creative person, with structured administration and organization skills. Throughout my career I have optimized and simplified workflows and more than once prevented outsourcing.

My mission is to make homeownership dreams a reality for my clients. I offer full support during the home buying and selling process, and i am committed to understanding my clients' unique needs. I am eager to help you find the perfect place to call home. It's not just a transaction - it's about helping people start the next exciting chapter in their lives.
